

STEP-BY-STEP

When solving a math problem, it helps to do the work in steps. Use this chart to map out the steps.

1. Write any important math formulas or notes in the box to the left.
2. In the top right box, write your problem.
3. Complete the problem, one step at a time. Put only one step in each box.
4. Write your solution in the bottom right box.

Important math formulas and notes:	Problem:
	Step one:
	Step two:
	Step three:
	Step four:
	Step five:
	Your solution:
Why did you choose to solve the problem using the method or strategy that you did?
