1. Introduction

Please prepare your extended abstract according to this format. It is recommended to format the document using the predefined Word Styles (See styles in 'Styles' tool)

Abstract **maximum extension is four pages** (including references).

Extended abstracts must be submitted in English.

Authors affiliation should be grouped, only the email of the corresponding author must be indicated.

(Arial Narrow 9 pt normal)

2. Extended abstract preparation

The maximum length of the extended abstract is 4 pages including references, figures and tables.

All abstracts shall be submitted using this template and format (as a word file). **Extended abstracts should be submitted by July 5th 2023**. No abstracts will be included in the final program unless at least 1 author has paid the registration fee for the conference. One registration fee can present only two extended abstracts to the congress (oral or poster).

3. Extended abstract preparation

The extended abstract to be published as pdf with ISBN number should be formatted as follows. All margins should be set to 25 mm. Use a one column format. The recommended type face is Arial Narrow. All text must be full justified 9 pt. Use 12 pt bold lowercase for main headings. Do not leave an empty line between paragraphs.

Do not add any page headings or foot-page.

All Figures and Tables should be numbered and contain a caption (8 pt). Do not use colours and do not extend figures and tables into the margins.

Table 1. Example of table

Country	Colour	Units	People
Spain	Red	1	345
India	Blue	2	567
Brazil	Black	45	345

13th National and 4th International
Conference in Engineering Thermodynamics.

4. Conclusions

The extended abstract must contain an introduction section, a conclusions section, and a references section. Authors can include any other needed sections.

5. References

References must be indicated using Annotated style using number and brackets. Example: As Tusek et al. [1] defined and Maiorino et al. [2] verified,…

Please, use only the first author of the reference and include all the rest using 'et al.'

[1] Tušek, J., et al., A regenerative elastocaloric heat pump. Nature Energy, 2016. 1(10): p. 16134.

[2] Maiorino, A., et al., ART.I.CO. (ARTificial Intelligence for COoling): An innovative method for optimizing the control of refrigeration systems based on Artificial Neural Networks. Applied Energy, 2022. 306: p. 118072.
