

Albert Einstein once said, "I am enough of an artist to draw freely upon my imagination. Imagination is more important than knowledge."

The key role of the Historian is to record what we did that helped our community in the one year we are in NJHS. I believe I could come up with imaginative and effective ways to do this.

There are three main reasons I am interested in this position.

The first one is I want to show past and future NJHS members that we did something important. Recording history is just as significant as making it, because showing others what we did in the community can motivate them to do something meaningful as well.

The second reason is I love taking pictures and writing. I have entered contest dealing with photography and even have won awards for them.

The last reason is because I would also be very good at coming up with creative ideas to compile everything we did through the year into a scrapbook that is fun to look at yet has sentimental value.

Starting now we are NJHS for Chisholm Trail, we are the ones making a difference, the people who are doing something for others and not just themselves. So let's tell others about it, show others, and inspire them!

I believe I would make a great Historian and could really show others what we are doing and how we are doing something more. I can take this responsibility to record our history, our year in NJHS; I just need this chance! Please vote for me to be your Historian. Thank you.
