

Ph.D. in Public Health,

Minor in Jewish Studies: Bioethics and Healthcare

HBIU University

Course Duration: 3 years

Credit Hours: 105

Program Description

The Doctor of Philosophy (Ph.D.) in Public Health at HBIU University is designed to develop scholars and leaders in the field of public health, equipping them with advanced research skills, policy expertise, and practical implementation strategies. This program provides an in-depth exploration of epidemiology, healthcare policy, global health challenges, and community health interventions. By integrating both theoretical knowledge and applied research, graduates will be prepared to contribute to academia, government health agencies, nonprofit organizations, and global health initiatives, addressing pressing public health issues and improving population health outcomes.

The Minor in Jewish Studies: Bioethics and Healthcare specialization offers a focused study on the intersection of Jewish ethical principles and modern healthcare decision-making. This specialization examines topics such as medical ethics from a Jewish perspective, end-of-life care, reproductive health, genetic testing, and the role of religious law in contemporary healthcare. Students will explore the ethical challenges faced by healthcare professionals and policymakers within the framework of Jewish teachings and traditions. This minor is particularly beneficial

for those seeking to work in faith-based healthcare organizations, medical ethics advisory roles, or interfaith health policy development.

Admissions Requirements

- Master's degree in a relevant field
