

Google Classrooms and Connections

Parents and Students: Teachers will create one to two 40-minute lessons per week. Assignments will be distributed to students through each teacher's Google Classroom.

If your student is unsure how to access this Google classroom, please email the teacher of the course directly. Teacher emails are organized by their department below. Additional emails of our counselors, librarian, social workers and therapists are also listed.

*****Please note that Classroom is for students, parents will not be able to log in unless they use their child's West Genesee email address and password.***
