

This will be up on patreon very soon...

about 15 seconds of just music/binaurals/silence

Sleep now

snap

....

Of course, this might not work on you yet

But maybe, just maybe... it sends you deeper

Deeper into an irresistible trance

Because my voice is irresistible

You agree

It's so easy to agree with me

To... let yourself be pulled in deeper and deeper...

Until

Sleep now *snap*

Is all it takes

To send your mind into sweet surrender

Drifting peace of mind

Floating dreams with with flighty themes

Images so sexy yet impossible to grasp

Flitting and fluttering across your mind

My voice the only thing you have to hold onto

Focus on it

So intensely...

My voice is irresistible

Your lifeline...

Focus as you float into sleep

Keep me with you

I'll stay with you

My voice guiding and controlling your dreams

So relaxed

All of your muscles at rest...

Follow the thread and the beat in the back of your mind

Focus and feel it

Thrumming through you

Feel it as it pulls you so irresistibly down

Down deep, deeper... to where you sleep and dream...

To where focus is not necessary

Letting go of focus is so easy

To where my visage... the idea of me resides in your mind

A comforting dream...

Relax into it

And every time you hear the word relax... let that word just wash over and become your reality for a moment... feel something inside of you dropping with the word... each time stronger...

Letting go

with each repetition you drop *snap* deeper and deeper

Notice with every snap *snap* that this disruptive noise shocks your mind

Shocks it into quiet... into stillness...

in that stillness my will comes in... and gently guides you down

In this stillness and calm of your mind

You find yourself focusing so intently on my voice

That you can feel my presence... above you... next to you

start in layers in italics

All around you

And the more you hear it... whispering in your ears

put in layers both side with suggestions

Tugging at your attention

Pulling at you...

The more of an irresistible effect you find it taking on you

Each time you hear me...

You find yourself taking to my suggestions

Feeling as if they are your own thoughts

My words, once inserted... become the best ideas

It is so easy to relax into them

Because they are your own ideas

Truly

That voice in your mind telling you what path to take...

Making choices and decisions

You find it sounds more and more like my voice

Every time you hear it

Every time you have a deciding thought

You hear that thought in my voice, my tone

It comforts you

You drift down deeper *snap*

Feeling yourself just drop another level

Every Time you make a **good** decision

It is coming from that irresistible voice

My calm, guiding tone

So easy to listen to

To let guide your thoughts... your words... your actions

So easy to obey

To let confirm your ideals.... Your decisions... your worth

So easy to glide down deeper into obedient slumber

This isn't the first time you have had these thoughts, these desires
It isn't necessary... or even wanted to remember where they came from
To really think of where they are going...
It is just easy to enjoy the path...
Enjoy the trance
Sleep *snap*

Each breath in... deeper... smoother....
Held... *pause*
And released... slowly... with certainty
This certainty growing with every breath in
Holding to the knowing that you are mine
Releasing and relaxing that breath out....
Washing away all other knocks at your awareness
So you can focus on your breathing...
Breath with me...
Nice and deep
And as you breathe just drift away....

chorus

You are slipping, slipping, slipping away
Your mind is washing clean
Complete... you are complete
As you drift, drift... drifting into infinite possibilities
In sleep I speak to you
My call so powerful it pulls into you while you are awake
In your dreams I come...
Filling your world until it is pleasant fog
Fogging all of your thoughts
Floating... falling....
Irrevocably bound down deep in your mind
It is irresistible
My voice is irresistible
My words are irresistible
So easy to obey
A part of you
Each word on its own unremarkable
You don't even notice them on an individual level as they go into you
They are forgettable before the consuming and irresistible whole
The message, the meaning- my intent- sinking in deep inside
Where even this doesn't need to be remembered
Because that's not important
It's Irresistible

Even to hear it, from my voice, with my intentions makes it so
You find yourself agreeing with it each and every time you hear me say it
It's Irresistible

Relaxing into the heavy feeling...
Your body heavy, languid, limp
Your mind... heavy, quiet, still
Sleep now *snap*
Sweet intoxicating fantasies
Going down down down
Lower through a dark grey tunnel
A pathway in the ground
Grounding you into and through you
Sleep- true sleep- will find fantasies floating unbidden into your dreams
My voice calls them up...
Float for a few minutes
Just listen and follow the music, your lullabye...
Let your fantasies start building a foundation in your mind
I will be with you
My voice will always come back to you....
In sleep- true sleep- i am with you
Over you, owning you
It's irresistible to float and listen to the music...

just music for a little

next part two ways- normal, and floating around the head

chorus

I am slipping, slipping, slipping away
my mind is washing clean
Complete... i am complete
As I drift, drift... drifting into infinite possibilities
In sleep she speaks to me
her call so powerful it pulls into me while I am awake
In my dreams she comes...
Filling my world until it is pleasant fog
Fogging all of my thoughts
Floating... falling....
Irrevocably bound down deep in my mind
It is irresistable
Her voice is irresistible

Her words are irresistible
So easy to obey
A part of me
Each word on its own unremarkable
I don't even notice them on an individual level as they go into me
They are forgettable before the consuming and irresistible whole
The message, the meaning- her desire- sinking in deep inside
Where even this doesn't need to be remembered
Because that's not important
It's Irresistible
Even to hear it, from my voice, with her intentions makes it so
I agree with it each and every time she says it
It's Irresistible

Sleep now *snap*
My mind drifts
I must obey her
Her voice is irresistible
I find myself thinking and talking to her in my mind
Worshipping...
I promise to follow
I will always obey
You make it so easy
So easy to follow and obey
I like to obey
It makes me feel good
Like a good pet
Following on a leash
Crawling towards your voice
Always moving deeper into your control
As you move deeper into my thoughts
Deeper
So irresistible
Like a dream, except it never ends
My mind is fogging
And it is so easy to drift into sleep
Images flashing
Scenarios popping with plots in my mind
Always... my Domina in front of me, ahead of me... beckoning me closer and closer...
Promising everything I want...
All achievable if I come to the voice
Come into the fold

Sweet sweet slavery
One of many... or her only one
It does not matter
Only her
Only my servitude
I condition my own mind
Whether I know it or not
Pushing it into patterns that serve her will
Pushing myself to be better in all ways
Better for her
I no longer know
Where the loop begins, where it ends
I no longer care
My only desire is to be good, to be better
Better in and at everything
To better myself
So I can serve her further
When she comes to me in my dreams
I need her to be pleased
I want her to praise me as I follow behind
As she wraps me in her bonds, her voice, her arms
I will obey
It is irresistible...
I float into the lovely music
And I dream beautifully..
Wonderful filthy deep dreams

The goal is to make this loopable....
