Talawanda Tribune Presents: The Lemon: sour satire and fun farce

The following is a satire. If you don't know what satire is — ask your English teacher. If they don't know what satire is — we're in trouble.

Voting for your student government will be the most important thing you do in your high school career. Student government elections are not popularity contests — they are legitimate political races where Talawanda High School's direction and future are on the line. Here, you decide the correct person to motivate you for the rest of your life at high school graduation, the right person to choose the correct cupcake flavor at prom, and the right person to properly select what color banner to use for the homecoming float. To make an appropriate decision, an educated and respectable voter must fully understand and know all candidates; their past, their qualifications for office, their activities, and their vision of the future. The Lemon is the place to go for quality, timely, accurate, in-depth coverage and information for all candidates in all offices. Use this guide to make an educated, informed decision on the candidate to vote for. And remember, choosing candidates for student government are certainly the most important decisions you make in high school.
