### **AQA GCSE English Literature**

#### Course Description

This course is designed to be taken over two years with all assessments taken at the end of the course. The course will be co-taught with GCSE English Language. Students will therefore greatly benefit from the transferable skills learnt across the two subjects. All assessments are closed book and are also compulsory.

The study of GCSE English Literature aims to support students' achievement in an untiered, closed book context through the use of extract-based questions in the assessment of the 19th-century novel and the Shakespeare plays. The teaching and studying within this course will therefore take a skills-based approach that is consistent across the genres. The course offers excellent preparation for AS and A-level English Literature, as well as giving students a grounding in a wide variety of literature that will stay with them for life. The following genres will be taught and assessed: a Shakespeare play, the 19<sup>th</sup>-century novel; a modern text, which may be prose or drama and poems from a chosen anthology cluster. Students will also be taught how to respond to the unseen poetry task.
