

Dear Pratt Administration,

In response to the murder of George Floyd and subsequent protests, numerous students have reached out directly to Student Government via social media, email and other methods in order to voice their concerns about Pratt's response. Together we have met and discussed combating what we think Pratt must do to address its own role in structural racism and violence.

President Bronet's letter to students states, "As your president, I renew my commitment, and the Institute's commitment, to work to eradicate racism and injustice through our curriculum, our outreach, and our mission." This statement is meaningless without action. Your commitments are meaningless without dedicated follow through. Change doesn't just have to happen on the local, state, or national level; it has to happen within the confines of our own institution of learning. We call on Pratt to do the following:

1. Pratt must immediately break all monetary and symbolic ties with the NYPD and private security companies.* Police and their proxies (private security companies) have no place on our campus. Instead, Pratt must commit resources to support community-led alternatives to policing.
2. Pratt must decolonize its educational structure and actively integrate Black inclusion in both the curriculum and classroom. In *every* class in *every* department, students should learn about Black artists, Black designers, Black architects, and other Black folks who have contributed to their field of study. The Eurocentric, White experience must be decentralized across departments and schools. Beyond this, we call on Pratt to immediately begin work on the creation of a Black Studies program, as a part of Pratt's core curriculum.
3. Pratt must renew its commitment to diversity, equity, and inclusion as a whole by hiring more non-white, especially Black, faculty to all of Pratt's departments. In addition, diversity training must become mandatory for all members of the Pratt community.
4. Students at Pratt demand greater transparency behind the implementation of institutional policies. The progress of the Diversity, Equity, & Inclusion Strategic Plan must be made publicly available for all members of Pratt's community.
5. Pratt must commit to financially supporting the Black community inside and outside of its gates by increasing and deepening scholarships for Black students, expanding its HEOP program, and finding ways to reinvest in the neighborhood it has gentrified.
6. Pratt must diversify who holds leadership positions especially within the Board of Trustees. They must also create an advisory board that informs them of DEI issues and how their decisions affect Black students, faculty, staff, and the surrounding community.

*Pratt's initial response to remove the police vehicles from the NYPD 88th precinct from campus is a step towards solidarity with Black students and all marginalized communities. However, recent photos show that Pratt did not keep to its word; NYPD vehicles have since been seen at the campus entrance on Emerson and Willoughby.

Our demands are clear: Pratt needs to break all monetary and symbolic ties to the NYPD and explicitly bar them from our campus. In addition to a statement from Pratt, educational resources, donation links, and protest information should have been included. This can be easily done by using Pratt's social media infrastructure as a place to share these resources. We also implore Pratt to make monetary contributions to bail funds, abolitionist organizations, and Black businesses.

The Student Government Association and the rest of the student body demand Pratt Institute to fully commit to making the vital changes we have outlined here. *If Pratt is truly a champion of diversity, equity, and inclusion, the Institution needs to implement these changes.*

Sincerely,

[signatures] Please include your degree, major, expected year of graduation, and campus of study next to your name (Brooklyn, Manhattan, MWP etc.)
