Cleaning of 'Nirmalya' from Water bodies During 'Ganeshutsavsava'

During 'Ganeshutsawa' Nirmalya (flowers/durvas) donated to God Ganesha is released in water as per tradition. But this results in pollution of water bodies. Hence nature club has taken initiative to prevent this by removing such Nirmalya as far as possible and respectfully it is donated to vendors for decomposing in fertilisers. Activity conducted on 11/09/2019, near about 212 students and teachers, nonteaching members participated in event.

Best Practice 1: (Department of Botany)

Title of the practice : 'Botany Corner'

Objective of the practice: To create the awareness regarding use of medicinal plants. To enrich knowledge about protection and conservation of medicinal plants and to enhance scientific research through clear vision.

The context: During this activity, students display the twig of one plant in a spot and on a black board display its local name, botanical name, uses and side effects.

The practice: Many people prefers allopathic treatment for curing several ailments but allopathic medicines may lead to many health side effects. To overcome this problem the initiatives was taken. Through this activity uses of locally available important medicinal plants and displayed.

Evidence of success: Students regularly displays the twig of medicinal plant along with its name/ botanical name and its uses, side effects if any. The activity helped the students not only from Botany department but also from other departments to get idea about the locally available important medicinal plants and uses thereof. Therefore, the students actively engaged in conserving and protecting the species. It also helped the students to easily identify the medicinal plants.

Problems encountered and resources generated: Due to regular teaching hours and practical schedule, the activity could not be completed on week to week basis but whenever possible the students continues this activity.

Help for the flood-affected people: In August 2019, heavy rainfall lashed Kolhapur, Sangali, and Satara districts that led to a horrible flood situation. The college is situated in hilly area and about 90 villages in nearby locations got flooded. In this situation, the students, teachers and administrative staff of Shri Yashwantaro Patil Science College Solankur, came together to help the needy people. The college students collected money, clothes, domestic utensils, staple food like Jowar, wheat, rice, sugar, oil, pulses, sanitary napkins for ladies, etc. from the village and staff members and to the flood-affected villagers in the vicinity. Particularly took lead in the said activity and along with other students

College student Mr Nandkumar Patil (Botany Department) help during flood affect ted area of Kolhapur, Sangali, Shirori.
