

Hi Keisha,

I watched your reels on the second quarter estimated tax payment and I like the suggestion you give to your audience on how to fill out the payment via emailing a 1040 ES form and over the phone.

Based on my research in the real estate tax CPA niche, I noticed that your engagement could significantly improve if you could add more movement, quick transition, and shiny colors to your reel.

So I recorded a short Loom video breaking down the strategy for you step by step. I've also included a bonus caption that you could use to get more followers to download your 12 Biggest Tax Deductions for RE Professionals.

Feel free to test it out.

Thanks,

Angelo
