

Season's Greetings

Happy New Year from The Accessibility for Children Community Group!
We are so thankful for a fruitful 2023, and all of the hard work and assistance from our group's members and the members of other W3C community groups and task forces.

This year our group was able to come together and complete an [Accessibility in K12 Education short paper](#) reviewing new regulations and laws in the United States regarding accessibility in education, we contributed to [the 'Age Appropriate Digital Services Framework' by CEN and CENELEC and IEEE](#), and started a [Skills Assessment](#) of group members. We were also able to provide [Use Cases and Feedback for the WAI-Adapt](#) Task Force and work on Ethics of Interface as it applies to Accessibility for Children.

In addition, Suzanne Taylor stepped away from the role of co-chair for this group and Shira Goldberg stepped in as co-chair along with Maud Stiernet. We thank Suzanne for her hard work and contributions to this group and look forward to her continued valuable input.

Lastly, we are proposing a new logo below!

We are excited to continue this work in 2024!

If you are interested in joining us (<https://www.w3.org/community/accessibility4children/>), now is a great time, as we will be prioritizing our work for the new year during our next meetings!
