Summary

Detail-oriented Java Developer with **3+ years of experience** in java backend development. Proven ability to develop optimized, scalable and secure applications, implement CI/CD pipelines, and monitor systems with modern observability tools.

Skills

- Programming Languages - Java, Scala Basics
- Backend Tech: Spring Framework(Spring Boot, Spring MVC), RESTful Web Services/APIs, Microservices Architecture
- Databases: SQL, Sybase, Oracle, MS SQL Server, Redis
- Cloud Platforms: Microsoft Azure
- Devops and CI/CD: Docker, Jenkins, Maven, Gradle, Git, Github, Bitbucket, Nexus/JFrog, SonarQube
- Testing and Quality Assurance: JUnit, Mockito, Postman
- Monitoring and Observability: Grafana, Prometheus, Jaeger, Loki
- Message and Streaming: Apache/Confluent Kafka, ActiveMQ
- Tools and IDEs: IntelliJ IDEA, Eclipse, Visual Studio Code, Putty, WinSCP
- Build and Configuration: Maven, Gradle, Apache Tomcat, Nginx
- Version Control and Collaboration: Git, Github, Bitbucket, Jira, Confluence
- Operating System: Windows, Linux, Bash/shell scripting, Unix
- Other: Agile/Scrum Methodologies, TDD/BDD

Experience and Projects

Subject Matter Expert (SME) - Mthree - Mumbai

- 1 SEP 2024 - PRESENT | 1 year | **Client**: Morgan Stanley
- Worked as **Full Time Consultant (FTC) at Morgan Stanley (onsite)** in the **FraudTech department**, Technology BU to do seamless **integration between ETrade and Morgan Stanley's fraud applications**.
  - Projects:
    - Realtime Signals Migration
    - Q6 Etrade Malware Events Migration

Subject Matter Expert (SME) - Wiley Edge - Mumbai

- 4 JULY 2022 - 31 AUG 2024 | 2 years 2 months | **Client**: Morgan Stanley
- Worked as **Full Time Consultant (FTC) at Morgan Stanley (onsite)** in the **FraudTech department**, Technology BU to do seamless **integration between ETrade and Morgan Stanley's fraud applications**.
  - Projects:
    - Onboarding existing flows on Confluent Kafka from Apache Kafka
    - EWS (Early Warning System) - Account Owner Authentication
    - Zelle ET-P2P Payments Screening

Associate Engineer Intern - Datametica Solutions Private Limited - Pune

2 FEB 2022 - 10 JUNE 2022 | 4 months

Intern - Wiley Mthree - Mumbai

FEB 2022 - APRIL 2022

Certifications and Achievements

- [Microsoft Certified - Azure Fundamentals - Credly](#)
- [Wiley MThree Alumni - Software Developer - Credly](#)
- [Columbia Engineering - Software Development - Credly](#)
- **Recognized twice at Morgan Stanley's Quarterly Fleet Meeting as a Top Performer** for delivering key technical contributions:
  - Successfully led the migration of Kafka from Apache to Confluent independently, ensuring zero impact on existing data flows.
  - Developed a high-performance microservice-based Gateway for the Zelle project from scratch, handling thousands of requests per day with uninterrupted production stability AND Migration of realtime signals data.

Education

Bachelor of Engineering (BE) in Computer Science

[Savitribai Phule Pune University\(SPPU\)](#) - [AISSMS College of Engineering](#) | Pune, Maharashtra

JULY 2018 - JUNE 2022 | 4 years | **CGPA** - **8.97** (FIRST CLASS WITH DISTINCTION) [82.64 %]
