

# CS-6035 Intro to Information Security

## Information:

You can find basic information on [the course website](#). Please refer to [the course prerequisites](#) and [the project prerequisites](#) to ensure you're prepared. You can find [the course schedule online](#).

**Course Textbook:** Students can find our [open source textbook online here](#).

**Grading:** 100% over a varying number of projects, see the [schedule](#) for the current semester.

**Grade Distribution:** There is no curve!

A: [90%, 100%+] B: [80%, 89.99%] C: [70%, 79.99%] D: [60%, 69.99%] F: [0%, 59.99%]

## Communication:

**All communication should go through Ed Discussion.** Students should expect to receive responses within 48 hours. For private questions, make private posts. Publicly posting solutions will result in immediate referral to GT OSI. **Note:** We will ignore direct email communication unless it is clearly asked for by a TA/Instructor. *All communication is done via Ed Discussion.*

You are required to follow the pinned Instructor posts on Ed Discussion on a frequent basis for any classroom announcements including project updates. You do not have to follow the student posts.

## Regrade Policy:

There will be a window of time after each project for regrade requests. If you are thinking of asking for a regrade you should be prepared to argue why your request is meaningful. **We will not tolerate frivolous regrade requests. If you do not specify a clear reason the grading was wrong then we reserve the right to deduct points in addition to ignoring the request.**

## Academic Honor Policy:

All work you submit for this class will be checked for plagiarism of any kind (Section 3 of [Academic Honor Code](#)). All violations will be reported to [The Office of Student Integrity](#). **If found guilty, you will be given a 0 on the entire assignment/quiz/exam.** ([OSI Sanctions](#)). To find out more about our OSI sanctions in this class please see the following [link](#)

## Assignment Logistics:

All projects will be submitted via gradescope. Each project will define their own format.

We will import your information into Gradescope which will create an account for you; **You are required to use this Gradescope account with the name and GTid that matches exactly with Canvas.**

## Submitting Work Late:

All assignments are due at exactly 11:59:00pm ET (GT's time zone) on the day indicated by the Canvas assignment and the course schedule. **After that, you will receive a 0.** The **ONLY** exception is a valid extension. (Please see the next section)

## Extensions:

Extension requests must be made before the project deadline. Requests are made via private Ed Discussion posts to all Instructors with proper documentation. (i.e. medical note from doctor or proof of deployment in the military.)

*You are responsible for the information in this syllabus. The syllabus and course schedule are subject to change at any time; Changes to the syllabus or course schedule will be relayed to students via Ed Discussion.*
