

EHS Chorale Summer Assignment

District Chorus Audition Prep Information

All Chorale students are required to audition for the PMEA District 10 Chorus in October. Audition material, including practice track recordings, [can be found here](#). Students are expected to know the notes and rhythms for their individual parts by the first day of school.

Assignment Options

Students will be required to either attend a summer audition workshop (see dates below) OR record themselves performing their part individually to be submitted during the first week of school. This ensures students will be more prepared for their auditions and guarantees everyone will be ready to deep dive into the more technical aspects of the piece at the start of the school year.

Audition Workshop Dates

Start times are below by voice part. Students only need to attend one date, but are welcome to come to both. Additionally, if you cannot attend either day but would still like to get help in person, please feel free to reach out and see if we can schedule a separate individual or small group practice.
