Good afternoon,

I am local and came in the other day for the first time, when I briefly spoke to one of your employees...

I told her how my mother raved about your shop, but I was not familiar with it beforehand.

I took a look at your website, and tried to find you on social media, which led me to ask your employee if you would be interested in some digital marketing consultancy.

Just from your website, I'm sure I could help you bring in more customers, and that's not even looking at social media...

If you would like additional information, please get in touch and we can explore options.

Kind Regards,
