

MONTEREY BAY WORLD LANGUAGE PROJECT CSU MONTEREY BAY

INVITES YOU TO PARTICIPATE IN

Inspiring Social Justice and Advocacy in Spanish Heritage Speakers

As the situation for many students is returning to a new “normal,” the opportunity has emerged to re-examine what we, as a society, must fight to change and what we must work to bring back. In this three day workshop, participants will explore the use of literature and media as tools for social justice, with an overall focus on *Culturally Responsive, Relevant, and Sustaining Pedagogy*. Attendees will receive resources to inspire unit design with this approach in mind, including student samples, teaching strategies, and authentic texts. Participants will also be encouraged to collaborate and exchange additional resources as a community of teachers and learners on this ongoing journey.
