SL: The secret to crystal clear shots

Hey, [name]

You just made the best decision of your photographing life.

Everything you think you know of clear photos is now irrelevant.

How? Press one tiny button and put a filter on it right?

Wrong. When taking pictures, think of conveying a message, a purpose.

Position yourself close to your target, look it in the eye and think of capturing not just a bland silhouette but the surrounding. Imagine yourself in their position, why are they standing there? Capture the story behind them and convey it.

Convey depth, otherwise your pictures feel boring.

How can you tell a story with a boring picture?

You are about to have the perfect opportunity, everything seems aligned.

Click the shutter. **NOW!**

There you have it.

A picture worthy of a knight.

However, there is more to crystal clear shots than just theory.

We can help you elevate your photos even further.

Limited for 24 hours we present you a unique opportunity to learn from Gilbert Hilbert on how to **SQUEEZE** the absolute last drops of excellency out of that photo!

Stay tuned.

SL: Hilbert Gilbert's secret to that STUNNING picture

Standing in front the couple about to kiss in front of their loved ones.
Vowing til death does them apart, Hilbert awaits the perfect opportunity.

BOOM! A picture to be remembered for generations and beyond.

This is not fair, he told himself, hoarding this knowledge for myself until I no longer can share it.

The warm lighting.

The quintessential moment.

The story locked forever in frame.

Years of trial and error led to this vast knowledge.

I have to share it.

Bewildered they listened and fell out of their cranky chairs.

Begging me to continue the lessons.

Magnificent piece of expertise they told me I have.

Do you want to know what I told them?

Listen to Gilbert Hilbert's secrets by taking this unique and limited opportunity available to you now for only 7 dollars a month!
