

INS 6101 Employee Benefits Executive Summary

Registration Details

Course: INS 6101 Employee Benefits

Credits: 2 credits

Description

Covers design and administration of employee benefit plans including retirement & pension, health insurance, disability benefits and life insurance. Alternative funding methods, including self-insurance, and issues of legal liability and compliance are presented by industry professionals.

Student Feedback

- “The Employee Benefits course has been one of the most beneficial classes I have taken so far at the U. I recommend this course for all students, regardless of their major. The course presented benefit options applicable to post graduation individuals who have or are looking to land a full-time job.”
- “I greatly appreciate all the speakers who took time to educate us along with Professor Whitman for making this class worthwhile.”
