Subject: Don't like where you are?

Body: It's Josh!

I remember prior to 2015, I didn't like

where I was in life.

I was working 60-80 hour weeks as a retail jewelry salesman seeing no financial freedom, and no end in sight.

It was just frustrating that most of my time was going to my work.

Time is something you never get back...

2015, [I decided to make a change and wanted my time back.](#)

This led me to the digital economy where I can leverage systems to do all the heavy lifting for me.

I truly got my time back!

If you are frustrated because you don't have the time to do amazing things with your family.

[This Can Help You!](#)

You can always make a crap load of money, but if that means you are away from your family, what is the point?

Why not get your time back and build something that can leave a legacy for your family.

Remember, you got one shot at life, let's make it the best.

Hey,

Do you want to work for your whole life and only get hopefully 10 decent years to relax before you're finally unable to do anything anymore?

If you haven't started yet, I get it.

That's the hardest part of this entire process.

Think of this though...

Are you willing to continue working for someone else and make them rich? Are you willing to continue to trade time for money?

Email 19:

Subject: The KEY to financial freedom (open up)

Body: Do you know what separates the rich from everyone else?

They have systems that bring in income whether they are working or sleeping.

Think about it for a second....

Those late night infomercials that run...

Those websites you buy from...

Those authors that create books...

The product owners are earning when you make an order (whether its 2am or 2pm).

They did the work once and bring in residual income.

Good news is in 2023, you don't need to be on an infomercial, be an author, or create your own product and your own system..

[You Can Just Leverage This System Here...](#)

And you can start earning like the big boys

To your success,

-Josh
