

The Fall of Alberta and Canadian Liberty

1. Opening statement on globalism, summary of globalist network, who I am
2. United Nations Sustainable Development, WEF climate change fraud comes to Canada
3. WHO International Health Regulations (Treaty), Alberta Public Health Act, Covid-19
4. Alberta WEF, Conservative MP funding anti-Alberta oil NGOs, Alberta Digital ID
5. Alberta climate change fraud, 13 years before Justin Trudeau and Notley's NDP
6. Net Zero Carbon Capture Carbon Tax funded fraud, Alberta connection
7. Another way the United Nations Agenda came through Alberta
8. United Nations Migration, UNDRIP, Alberta Land Act land grabs, Dr Jordan Petersen note
9. Alberta connection to a WEF/UN Agenda 2020 architect
10. Elite pedophiles, doctors and public health bureaucrats, protected in Alberta
11. Prior to children being Covid-19 vaccinated, ten Alberta UCP MLAs met with Drs Roger Hodgkinson, Robert Malone, Paul Alexander, connected w/Peter McCullough
12. Summary of the globalist Alberta/Canadian coup
13. Who I am, personal testimony of wading through the political swamp

[Links](#) embedded throughout.

1. Opening statement on globalism, summary of globalist network

The same families who funded kings, set up global central banking, Bank of England, United States Federal Reserve, Bank of Canada, etc. Was it kings who conquered the world, or kings and the money behind them? Either way, the appetite for money and power of the less than one percent global parasites (as well as their domestic collaborators) is endless.

While Canada first fell to kings and the central bankers behind them, today the final fall of liberty has come through Non Governmental Organizations (NGOs) such as the Trilateral Commission, United Nations, WEF, WHO, etc. Organizations of the same global parasitic billionaire class, old money central banking families played significant roles creating those globalist NGOs. Rothschilds and Rockefellers being two well documented examples.

The modern loss of Canadian liberty came this way. Working papers from NGOs were brought into Canadian and Provincial law by the national and provincial governments, Liberals, Conservatives and NDP all playing a role. Federal parties control their provincial counterparts and so compliance across Canada was seamless.

Western commonwealth nations like Canada were easily structured to fit within a global framework of globalized centralized power of a few with a technocratic oligarchy now added into the mix. Whereas private (corporate)/public (government) partnerships transparently come together, assuming more power. Left and right wing governments, public bureaucrats, corporations, academics and others have all participated in this transition. To understand globalization and the further loss of Canadian liberty, loss of our individual liberty, we need to understand the structure of globalism. How did this come together?

- World Banking; (Rothschilds/Rockerfellers, etc) central banks, Bank of Canada/England, USA Fed, etc
- Technocratic Oligarchs, media, big Tech, big Pharma and politicians aligned on global agenda
- Club of Rome; highest level globalists can be seen collaborating, see [Limits to growth](#)
- Bilderberg (Rockefeller); Europe/North America, politicians, industry, finance, media, academia
- Trilateral Commission (Rockefeller); private/corporate, government, academia, etc

- United Nations (Rockefeller), WEF, WHO, etc. UN predecessor is [League of Nations](#)
- World Economic Forum; provide working documents, i.e. climate change agenda, SDGs
- World Health Organization; operational branch, governance of global public health

From my opinion and perspective, we have been propagandized, divided and conquered. These are basic and classic tactics of war. The document below lays out the evidence of the Canadian coup, decades in the making, a deeper loss of life, liberty, peace and prosperity of the people of Canada by the actions of Trudeau senior through to Trudeau junior, Carney today and in all other politicians and governments in-between. Harper, Mulroney, Martin, etc and all others included.

As Canada and the world transitions to a new era, a Great Reset as they say, one where our individual and country's liberty falls even further, God be with us all. Although the information in this document is darkly sobering I'd personally rather see the truth, see the when and how we got here, to be liberated by the truth so that I could no longer be manipulated by politicians and understand how we can absolutely liberate ourselves. I believe in order to solve a problem, we first need to know how that problem was created, acknowledge the what, where, when and who created this problem we find ourselves in. I get asked the question, what's the solution (if not political)? And also, "well who do we vote for, if not the lesser of evils?" That's the problem isn't it? Looking for politicians to save us, looking to the political system that led us here, voting for evil, 'lesser' or otherwise.

Below is the summary of how Albertans and Canadians have been betrayed, along with my own thoughts and opinions following that, who I am and my experience in having a good long hard look behind the scenes of party politics and government. Thank you for taking the time to review this document. I know I can add to it, update it and at some point I may do that. For now, as it stands here, there's a lot of information to process.

2. United Nations Sustainable Development, the climate change agenda comes to Canada

1992, Conservative Prime Minister Brian Mulroney signs Canada onto global climate change United Nations Sustainable Development agenda at the [Convention on Climate Change at Rio's Earth Summit](#). And also, "The government of Canada decided to eliminate \$145 million dollars of Latin American debt by exchanging that for Sustainable Development projects."

2009, **Sustainability Act (UN Sustainable Development)**; This Act is to provide the [legal framework for developing and implementing a Federal Sustainable Development Strategy](#)...to advance sustainable development and respect Canada's domestic and international obligations relating to sustainable development. Otherwise known as UN Agenda 2015/2030

2010, Prime Minister Stephen Harper speaking at UN/WEF Davos Summit <https://youtu.be/HVqNkFGP0F0>

Stephen Harper shared his true ideology in speeches at the WEF, at one point stating Canada and other countries must give up their national sovereignty and follow a global governance structure, of the exchanging/ending of Canada's and other nation's national sovereignty, for something he called 'enlightened sovereignty'.

Harper said at one of his at one of his WEF presentations, "climate change disproportionately threatens the peoples least capable of adapting to it", also praising longtime WEF leader, "[Thank you Professor Schwab](#) for that kind introduction, I also want to thank you particularly for the invitation to speak here that

you extended to me earlier this year. But more than that, Professor, you have made the World Economic Forum an indispensable part of the global conversation among leaders in politics, business, and civil society.”

2012, Stephen Harper speaking at UN/WEF Davos Summit

<https://youtu.be/mlJrGGFWg4s?si=tYLxodatNYz88eel>

To the annual WEF Davos summits Stephen Harper consistently sent Canadian Conservative “[Ministers to lead several sessions related to the WEF’s](#) theme: The New Global Context.” ‘A world in search of a New Order’. John Baird, [World Economic Forum annual](#) participant, was one of the five Ministers. John Baird served as CPC leader **Pierre Poilievre’s** campaign Chair.

2015, **Paris Climate Accord**; “Office of the Auditor General of Canada In [September 2015, Canada joined 192 countries in committing](#) to the United Nations’ 2030 Agenda for Sustainable Development.”

2015, “Stephen Harper committed fossil-fuel rich [Canada to end all production and use of carbon-based energy](#).”

3. World Health Organization International Health Treaty and Alberta’s Public Health Act

2005-2007, Paul Martin and Stephen Harper brought to Canada, through the World Health Organization’s “[International Health Regulations, binding on 196 countries, including Canada](#),” Whereas Canadian travellers and workers returning to Canada would face quarantine and vaccination legislation brought in under Harper. Word for word what Canadians lived through, the reason why Canadian truckers took a stand.

The WHO’s amended International Health Treaty is coming into effect, (amended International Health Regulations). Whereas, in the event of an emergency, pandemic, climate change or other, the Chief Medical Officers of Health in each Province will hold absolute power over Provincial governments, the Federal Chief Medical Officer of Health will hold power over the Canadian government.

Put it another way; Chief Medical Officers of Health across Canada will answer directly to the World Health Organization, an unelected, unaccountable Global organization. The 2005 ‘Quarantine Act’ set the table for the WHO’s medical tyranny coming into Canadian law. Conservatives, Liberals and NDP voted unanimously in favour.

The World Health Organization’s International Health Regulations (now Treaty) came to Canada (similarly to all western nations) through a 2005 Parliamentary vote on Bill C-12, the Canadian ‘Quarantine Act’, where Conservative, Liberal and NDP government and oppositions. All those Members of Parliament voted in favour and all provinces and territories aligned. Fifteen years later the WHO/Quarantine Act was the foundational reason why Canadian truckers took a stand because upon returning to Canada from the United States, they faced quarantine and treatment/vaccination legislation/law.

The WHO IHR/Quarantine Act was voted into Canadian law by a unanimous vote of Conservative, Liberal and NDP Members of Parliament. This included all Western Canadian and Alberta CPC MPs. Harper, Poilievre, Jay Hill (went on to lead Maverick Party), Brian Jean (current government Minister under the Alberta UCP), Art Hanger, Rob Anders, etc.

From [Canada’s Quarantine Act 2005](#):

“6. (1) The Minister may establish a quarantine station at any place in Canada.

7. The Minister may by order designate any place in Canada as a quarantine facility and amend, cancel or reinstate the designation.

18. A peace officer may, at the request of a screening officer or quarantine officer, arrest without a warrant and bring to a quarantine officer any traveller who the peace officer has reasonable grounds to believe has refused to be isolated or refuses to comply with a measure under subsection 15(3).

26. If a quarantine officer, after the medical examination of a traveller, has reasonable grounds to believe that the traveller has or might have a communicable disease or is infested with vectors, or has recently been in close proximity to a person who has or might have a communicable disease or is infested with vectors, the quarantine officer may order the traveller to comply with treatment or any other measure for preventing the introduction and spread of the communicable disease.

27. On an *ex parte* application by a quarantine officer, a provincial court judge within the meaning of section 2 of the *Criminal Code* who is satisfied on information submitted in writing and under oath that a traveller has failed to comply with an order made under subsection 25(1) or section 26 may issue a warrant directing a peace officer to arrest the traveller and take them to a quarantine officer.

31. (1) If a quarantine officer detains a traveller referred to in paragraph 28(1)(a), (c), (e) or (f), or a traveller referred to in paragraph 28(1)(b) who has refused to undergo the medical examination, the quarantine officer shall, as soon as reasonably practicable, apply to a judge of the superior court of the province in which the traveller is detained, or to a judge of the Federal Court, for an order requiring the traveller.

(a) to submit to a health assessment;
(b) to submit to a medical examination;
(c) to be treated;
(d) to be disinfested; or
(e) to undergo any other measure for preventing or controlling the spread of a communicable disease.”

It's political theatre to say, “We must stop the WHO and WEF” is nonsensical. The damage is done. The uni-party establishment changed Alberta/Canadian laws to fit within a framework whereas orders come from a non-governmental globalist organization of the United Nations. That was the Trojan horse. That was the betrayal.

Canada's 'Quarantine Act' voting record:

[Vote No. 80 38th Parliament, 1st Session Sitting No. 95 - Tuesday, May 10, 2005](#)

Alberta Public Health Act, the mechanism to bring forward WHO IHR/Quarantine Act. In March 2022 Canada's federal and provincial governments declared Covid-19 a pandemic emergency. Alberta's government passed 'Bill 10, the Covid 19 Emergency Measures Act', which became Bill 24, Bill 66, eventually becoming Alberta's current Public Health Act. As far as mechanisms go to enact medical tyranny, in Alberta, it is worse than before. All it'd take is for the World Health Organization to declare another “Pandemic” emergency.

Alberta has also set lawful precedent - across Canada - to support past and future medical health tyranny under the dictates of the WHO. In the Alberta Ingram case, "Justice Romaine ruled that [even if the proper decision-making framework was in place, Albertans' constitutional rights would not have been violated.](#)"

Like I said, that Alberta ruling set precedent across Canada, in saying the breach came in who was giving the orders, that the orders should have come from the Chief Medical Officer of Health. While certain Alberta business owners were let off on this technicality, like Chris Scott from the Whistle Stop Cafe, who I'll say here was over the top in defending the Alberta UCP government. I'll also note here that lawyers Leighton Grey, Jeffrey Rath and the Justice Centre for Constitutional Freedoms celebrated the ruling as a win.

The Romaine decision was no win. The court was clear in stating the infringements "were amply and demonstrably justified under the Charter because of the nature of the unprecedented public health emergency." That's a major loss, a precedent that should've alarmed Albertans and Canadians who value their right to attend places of business, worship, public events, schools, etc.

"Justice Romaine ruled that [even if the proper decision-making framework was in place, Albertans' constitutional rights would not have been violated.](#)"

I'll say it once more for all Canadians, Alberta's highest court, which sets a precedent across Canada, "ruled the infringements that did occur were "amply and demonstrably justified" under the Charter because of the nature of the unprecedented public health emergency." Alberta premier Danielle Smith publicly referenced this ruling and the UCP government's amendments to Alberta Public Health Act did not address this.

In 2023 the Alberta government made the political promise, Bill 6, that "Would clarify the roles and ensure accountability of both cabinet and medical officers of health, including the chief medical officer of health, during states of public health emergencies. These amendments, if passed, align with how decisions were made during the COVID-19 pandemic and how they should be made."

On November 30, 2023, Alberta's government stated in the amendment to the Alberta Public Health Act, saying that "Cabinet would be responsible for decisions respecting all persons or a group of persons, including a group of businesses, individuals, nonprofits, and educational settings;

However, "medical officers of health, including the chief medical officer of health, would retain final decision making authority for orders impacting specific persons or a specific public place."

The Alberta PHA was amended in November 2023 with the Alberta government claiming they'd removed the tyrannical governmental structure of Covid-19 tyranny, but have done no such thing.

"Where the medical officer of health determines that a person or class of persons engaging in the following activities could transmit an infectious agent, prohibit the person or group of people from engaging in the activity by order, for any period and subject to any conditions that the medical officer of health considers appropriate:

- engaging in the occupation of the person or group of people
- having contact with any persons or group of people
- attending a school"

Immunization/Vaccination: “A health practitioner who performs an immunization shall comply with; the most recent version of an immunization schedule published by the Chief Medical Officer”

In January 2024, Covid-19 mRNA vaccines, proven to be harmful/lethal injections, were added to Alberta’s vaccination schedule for children and babies 6 months and older. Alberta’s UCP government is lying when they say “it’s a choice”. Not for children and babies six months and older in Alberta government Foster Care still given Covid-19 mRNA vaccines.

Under the existing Alberta Public Health Act, Alberta has set the table for the WHO to hold authority over the people of Alberta even without the WHO treaty amendment. Giving medical officers of health the power to rule over the people of Alberta once again under the dictates of the WHO.

4. Alberta WEF, Conservative MP funding anti-Alberta oil NGOs, Alberta Digital ID

2014, the Alberta PC’s were actively working with the WEF; “[The WEF meeting was announced](#) in a press release during Premier Redford’s trip to the annual WEF summit...The event would be a first for Alberta. The government and the WEF would work together to develop a program on energy and climate change talks.”

2014, Wildrose leader Danielle Smith said, “The postponement of a prestigious World Economic Forum session planned in Alberta for late April was “highly embarrassing...It seems pretty perplexing that the Premier would give us a black eye like this. It’s pretty unprofessional,” said Smith...Hopefully it will happen but I think we should expect a little more professionalism and a little bit more attention to details coming out of the Premier’s office when it’s something so important.” said Smith

2019, Conservative MP Leslyn Lewis funded anti-Alberta oil NGOs

“[Leslyn Lewis, the ‘Green Energy’ candidate](#)” July 7, 2020, by Dan McTeague, Canadians For Affordable Energy

Lewis served on the Board and as Vice-Chair of Ontario Trillium Foundation, an Ontario government agency that distributes taxpayer money:

- gave millions in taxpayer dollars to several climate change alarmist groups that successfully campaigned, killed investment, shut down Alberta oil sands expansion
- \$200,000 of taxpayer dollars in one 2019 grant alone went to the Tides Foundation
- committed to, enthusiastic about, the Paris Agreement climate change net zero fraud
- doesn’t see anything wrong with the Paris Accord CO2 reduction targets
- campaigned to remove barriers, to allow easy and quick transition to so-called green energy, to transition away from oil and gas
- said so-called green energy program initiatives should adopt various forms ranging from carbon taxes, subsidies and price incentives for so-called green energy services and products

“If that sounds a bit like a climate alarmist, that’s because it is.”

“Tides Foundation and Tides Canada Foundation granted \$40 million to organizations involved in anti-pipeline activism in the U.S., Canada and in Europe. Of that \$40 million, \$25 million was explicitly for anti-pipeline.”

Alberta Digital ID; Through the Alberta Treasury Bank of Alberta (ATB governed by the Alberta government) Alberta's conservative UCP government partnered with Canada's Trudeau Liberal government on building a Biometric Digital ID platform.

"ATB Financial, is collaborating with the Government of Canada to provide the technology platform to support its [National Digital Trust Service proof](#)...The World Economic Forum agrees that banks and financial institutions should lead the path forward for digital ID's." Banks are highly regulated and trusted. They have advanced cyber security and privacy technology..A Federated Digital ID ecosystem developed in collaboration with Canada's best and brightest talent from our banks, telecommunication companies, law enforcement and government. It would have the power and security to store every Canadian's electronic identity and attributes...A Federated Digital ID approach can improve regulatory compliance."
- Neil Parmenter, CEO Canadian Bankers Association

Neil Parmenter speaks to a National Digital ID.

<https://youtu.be/Qyv38PiwPF0>

2022, in her article, **Danielle Smith** states her position on global **Central Bank Digital Currency**: "Is there Going to Be a [Central Bank Digital Currency](#)? Almost Certainly. My dears...I acknowledge your fears, but I would ask you to soldier on."

"The **World Economic Forum** document on digital currencies released in November 2021 shows a central bank digital currency is where the central bankers of the world are moving and it has already started in China. The Chinese already have 96 per cent of their transactions taking place digitally. Citizens like it. Chinese citizens are now voluntarily switching to the digital central bank."

5. Alberta climate change fraud, 13 years before Justin Trudeau and Notley's NDP

"[Alberta's path to a carbon tax: This timeline of events shows how Alberta adopted a carbon tax](#) and how the policies in the Climate Leadership Plan were developed and rolled out."

"[Alberta releasing new climate plan](#)... the two political parties (UCP/NDP) are often not as far apart as you might expect."

2007: Alberta PC's, amend "legislation and new regulations required facilities emitting more than 100,000 tonnes of carbon per year to reduce their emissions by 12 per cent. [Companies that failed to reach that emissions target paid \\$15 a tonne into a new climate change fund. Critics in heavy industry called it a carbon tax.](#)"

2009, Alberta PCs, "[Climate Change and Emissions Management Corporation was formed](#) to decide how best to spend the millions of dollars paid by companies whose emissions exceeded provincial limits. [The money was invested in green energy production, conservation and energy efficiency and carbon capture projects.](#)"

2015, Stephen Harper's Conservatives first to commit fossil-fuel rich Canada to "[end all production and use of carbon-based energy.](#)"

2016, Alberta's Notley NDP brought the [Oil Sands Emissions Limit Act](#); capping carbon emissions on Oil Sands, this limited future production, killing investment

2016, the Canadian Trudeau Liberal government [announced a federal carbon tax](#).

Pre-Alberta election, Jason Kenney committed to “scrap Notley’s 100-megatonne cap on oil sands emissions, end renewable electricity subsidies and let coal power plants operate past 2030.” Following being elected, Kenney broke his commitment on his campaign promise; “[Scrapping oilsands emissions cap not a priority](#)...The cap on oilsands emissions, however, is not a pressing concern.”

Although the “UCP [once pledged](#) to eliminate the emissions cap the NDP government set for the oil-sands sector. Ms Savage (UCP Minister of Environment) said this week that the cap could actually be lowered.”

Alberta’s new Premier Danielle Smith says, “I talked about how the science wasn’t settled on climate change, and I can tell you, I’ve come around full circle on that. I am now probably the first and early adopter of thinking that we can hit a net zero target and we can get there faster than anyone anywhere else.”

2021, Alberta UCP committed Alberta to, “significant emission reductions ‘in line’ with the country’s climate obligations, including **Canada’s Paris Agreement** pledge to cut its emissions by 30 per cent.”

2022, Alberta UCP Government declared “[Alberta’s tax on industrial carbon dioxide emissions will triple by 2030](#).”

Conservative Party of Canada leader Pierre Poilievre ran in favour of carbon taxes multiple times in his career: “These aren’t Liberal talking points, this is the Conservative record, direct from their platforms and statements..A cap-and-trade system that will allow firms to generate credits by reducing smog-causing pollutants,” the platform stated on page 34..September (2022)...all the way back to Poilievre’s first election in 2004...in 2011, 2015 and 2019, the Conservative Party ran on capping emissions for large polluters through regulation, a method of reducing emissions that puts a hidden cost on consumers by putting the cost on business....In 2021 it was a full-on consumer carbon tax. [It was a horrible policy, but Poilievre ran on it.](#)”

6. Net Zero Carbon Capture Carbon Tax funded fraud, another Alberta ground zero connection

2021, Alberta UCP [asking Ottawa to commit \\$30-billion](#) in spending or tax incentives over the next decade to spur the building of large-scale industrial carbon capture projects.

2011 to 2024, Net Zero Carbon Capture; [Alberta UCP government spent](#) \$1.8 billion, recently another [\\$1.8 billion dollars to](#) a Dow Chemical expansion project, for their Net Zero carbon capture component, Canada’s Liberals put in \$400 million.

Carbon Capture patent [US8119091B2](#). Who held the patent? Calgary company, Carbon Engineering LP. David Keith the company founder. “Carbon Engineering is funded by several government and sustainability-focused agencies as well as by private investors, including [Microsoft founder Bill Gates and Oil Sands financier Murray Edwards](#).” The World Economic Forum is a supporter of Carbon Engineering. In 2023, Occidental Petroleum purchased CEL for \$1.1 billion.

David Keith is an individual who’s been at the global forefront of climate change fraud;

- UN/WEF major contributor
- Coauthor 2001 IPCC Third Assessment Report
- Lead author 2005 IPCC Special Report on Carbon Dioxide Capture.
- 2005, Liberal prime minister Paul Martin appoints David Keith to the Canadian government's Sustainable Energy Science and Tech. Strategy.
- [David Keith's other demented brainchild is geo solar engineering](#)

Alberta political connections and political operatives:

In early 2022 I was asked to meet with David Parker, founder of Take Back Alberta, recruited as a young man by the Conservative party of Canada, started working for Stephen Harper at 23, as well as for former CPC Minister Ed Fast, a minister Harper had leading committees for the WEF. Parker is a former [board member of the Canadian Ditchley Foundation](#), a global think tank/networking organization openly endorsing WEF/UN SDG Agenda 2021, having a [Trilateral Commission member](#) on its board as well as Chief of Staff being [WEF Global Shaper](#) and World Economic Forum Agenda writer.

Parker also worked for Michael Binnion, an Alberta energy tycoon, close friend of Stephen Harper and Jason Kenney, according to Parker, an individual having the ear of the Alberta government/premier. Parker also mentioned CNRL's founder/chair as well as Alberta Enterprise Group lobby organization founder Murray Edwards as being a key influencer. Danielle Smith was meeting with Binnion leading up to her run for leadership and [named President of Alberta Enterprise Group in 2021](#), where Smith began promoting net zero and carbon capture, etc. Obviously, both Binnion and Edwards have carbon capture interests.

Another connection. **Joe Oliver**, former [Federal CPC Member of Parliament](#) and another Minister Harper sent to the annual WEF summits to lead committees. Oliver serves on the Board of Directors of a business interest of Michael Binnion.

In politics, both left and right governments follow the money. Those politicians plugged into political leadership positions, party leaders, premiers and/or prime ministers are simply puppeteered by those having the ear of governments in this uni-party establishment.

70% of carbon capture projects are funded by the taxpayer. Alberta UCP government and the Trudeau's Liberal government partnered in spending billions of taxpayer funds, with much of that speculated to go to Alberta UCP carbon capture lobbyists, in direct subsidies and tax credits.

[“To date, the province has invested](#) or committed nearly \$1.8 billion to support CCUS-related projects and programs.” - from the Alberta Government [“Alberta is asking Ottawa to commit to \\$30-billion](#) in spending or tax incentives over the next decade to spur the building of large-scale industrial carbon capture projects.”

Here in Alberta, the United Conservative government along with the NDP opposition are equally guilty in different components of climate change net zero carbon capture carbon tax funded criminal fraud.

7. Another way the United Nations Agenda came through Alberta

2010; Alberta PC government brings in the Alberta Land Stewardship Act; The Bill/Act/Law granted the Alberta government the power to forcefully take back private land, compensation determined by the government.

Alberta farmer Shaun Haney attempted to sound the alarm; “Is this Alberta or the former Soviet Union? [The Land Stewardship Act is unbelievable](#)” by Shaun Haney “You Need to Be Concerned About Bill 36 - The Land Stewardship Act.”

Global working group of NGO WEF, FORTE; (Financing Of Return To Employment) “works by retraining citizens to reach the United Nations Sustainable Development Goals as part of its ongoing partnership with the World Economic Forum.”

“When it comes to the environment. It's like, how do we train people for the green jobs of the future? How do we reskill oil and gas workers and people in unsustainable industries so that we can prove that you can have a sustainable transition? This is the way to do that.” - Nat Ware, WEF Global Shaper, CEO FORTE. FORTE's purpose is to, “train citizens to transition away from unsustainable industries such as coal mining, beef farming, logging and oil and gas.”

Through Wellington Advocacy **FORTE** lobbies the Alberta government. **Wellington Advocacy Inc** has worked on FORTE's behalf. Wellington staff are longtime political operatives of Stephen Harper, Jason Kenney and Ontario Premier Doug Ford. [WA Board member Ray Novak is a twenty year Harper](#) top political operative, as well as business partner in Harper & Associates. An organization with connections to eighty political parties around the world.

Public lobby records can be found here:
[Alberta Lobby Registry website](#)

FORTE, “Investing in the Reskilling Revolution with Nat Ware.” 18:00 minute mark
<https://open.spotify.com/episode/6WzEgnPka6L2AUd7dixdOe>

8. United Nations Migration, UNDRIP, Alberta Land Act land grabs, Dr Jordan Petersen note

2010, Alberta Progressive Conservative government brought into law the **Land Stewardship Act**

Alberta Land Act; “HER MAJESTY, by and with the advice and consent of the Legislative Assembly of Alberta, enacts as follows:

Purposes of Act 1(1) In carrying out the purposes of this Act as specified in subsection (2), the Government must respect the property and other rights of individuals and must not infringe on those rights **except with due process of law and to the extent necessary for the overall greater public interest.**

(ii.1) a growth management board under the Municipal Government Act;

Integrated planning regions

3(1) The Lieutenant Governor in Council (Government) may establish integrated planning regions under this section or as part of a regional plan, describe their boundaries and give them names.

(2) The Lieutenant Governor in Council (Government) may amend the boundaries and names of planning regions.

(h) **authorize expropriation by the Crown under the Expropriation Act**, including expropriation of mines and minerals;

(3) A regional plan may (a) specify those provisions of a regional plan the contravention of or non-compliance with which constitutes an offence or makes the person who contravenes or does not comply liable to an order, directive or administrative or other penalty under another enactment;

UNDRIP; 2018, [Canada joined United Nations member states](#), adopting a new negotiated agreement on international migration, brought forward by Justin Trudeau Liberals

2023, Alberta UCP action on UNDRIP. "[Action on UN Declaration on the Rights of Indigenous Peoples](#)
The Alberta government is committed to renewing its relationship with Indigenous peoples based on trust and respectful engagement."

As we now see in British Columbia, UNDRIP is the land grab component of the UN agenda, using corrupt and/or unaware First Nation chiefs and councils as pawns. In my opinion it's a divide and conquer tactic, pitting Canada's Native Indians against all other Canadians, mechanisms to remove the sovereign rights and freedoms of all Canadians. At the end of the day it's a land grab.

Danielle Smith has twice referenced utilizing UNDRIP. Once in an interview with Dr Jordan Peterson and another in rebuttal to the Chief's challenge to Smith/UCP's Sovereignty Act.

Dr Jordan Petersen side note; Petersen was one of the forty Canadians who served on the [Canadian subcommittee on sustainable development for the UN Secretary General](#), saying in an interview linked here, that he, "worked on the [UN Secretary-General's High Panel for Sustainability](#) report that was delivered, I believe, in 2013, and rewrote the underlying narrative to strip out most of the ideological claptrap."

Jordan Petersen has stated he created his Alliance of Responsibility Citizenship to "counter" the WEF. UN SDG and climate change Paris Accord supporter, Conservative MP Leslyn Lewis serves on the advisory board of Petersen's ARC group. As does Jason Kenney. All advisors of ARC endorse UN SDGs and/or Paris Accord.

Speaking about those wishing to control all others. Regarding concerns over land use bylaws, 15 minutes cities, UNDRIP, BC's DRIPA, in Alberta's 2010 Land Stewardship Act that gave power to the government to do what they will with land, including privately owned land, at the time a farm land advocate stating, "The Land Stewardship Act is unbelievable, is this Alberta or the former Soviet Union?"

9. Alberta connection to a WEF/UN Agenda 2020 architect

A Northern Alberta Member of the Legislature, Dan Williams, a former six year staffer under federal Canadian Conservative Minister Jason Kenney in Ottawa and a former friend of mine, said to me when Kenney came back to Alberta to run for Premier, that an individual named Jaime had "paused his very lucrative, private sector career to come back to Alberta to help". At the time I thought, 'What a great guy'.

Jaime would go on to become the Chief of Staff to Jason Kenney. I enjoyed talking with Jaime at UCP events, had a private meeting with Jaime and Kenney, blah blah, blah. I think back now to how naive I was. Little did I know exactly what private sector career Jaime had paused, not until the fall of 2020 after I'd walked away from the Alberta UCP government for their fascist governance through Covid-19.

Where did Jamie come from? From 2010 to 2015, **Jamie Huckabay** was the [Vice President at the Gerson Lehrman Group](#), a global organization/think tank based out of New York city. During his time as VP, Huckabay worked with the following individuals on the Board of Directors of GLG:

- **Joseph Stiglitz**, Former Senior advisor to **President Bill Clinton**, co-chair of the High-Level Commission on **Carbon Prices**, **WEF** since 1995. Involved in **IPCC**, as well former Chief economist at the **World Bank**. An architect of the global agenda.
- **Barack Obama's** campaign manager
- **Hillary Clinton's** campaign manager
- **Democratic National Committee Chairman**

Joseph Stiglitz, "Wanted: A **Global Green New Deal (Great Reset)**; [We will have to change many aspects of how we live](#), how we organize our economies, our cities, and our transportation, energy, housing, and food systems." "Stiglitz argues that we need to move away from fossil fuels to renewable energies."

Dan Williams also now sits at the table of government here in Alberta.

Canada and America have both fallen to unelected non-governmental organizations and people. While Americans bled and died hundreds of years ago fighting for their life, liberty and peace, they've now fallen also, having been taken over from within. As for foreign interference in the United States of America, look to independent journalists Whitey Webb and Mark Goodwin for indepth evidence of that betrayal. Link to their website here: <https://unlimitedhangout.com/>

In regards to the foreign interference in Canada, this is in my opinion a treasonous betrayal, by actions and inactions of Liberal, Conservative, NDP, Bloc, UCP, PC and all governments and oppositions across Canada, they and all who collaborated with them, of public bureaucracies, corporations, media, political operatives, etc, they've all treasonously betrayed the people of Alberta and Canada.

10. Elite pedophiles, doctors and public health bureaucrats, protected in Alberta

Calgary Herald July 28, 2023; "Between 2011 and 2021, more than 3,500 incidents of human trafficking were reported across Canada, though many incidents go unreported".

"Nearly two years after a provincial task force rolled out a series of recommendations to combat the scourge of human trafficking, the UCP government has announced a \$4-million investment to tackle the issue."

"The Alberta Office to Combat Trafficking in Persons will be created in partnership with three community groups to increase awareness and work to prevent what is often the hidden crime of trafficking in people - mostly women and children - for sexual exploitation, labour or the harvesting of human organs."

"We can't afford to close our eyes to the problem of human trafficking. And we can't afford to ignore those who are at risk of being trafficked or those who have been trafficked," - Premier Danielle Smith

The political and bureaucratic establishment understands well the crisis at hand and yet there are many children, many families, pleading for assistance in this crisis. Their cries for help continue to go

unanswered.

Children are being preyed upon, yet out here on the ground, cries for help go unanswered, victims are silenced. The children, mothers, fathers, grandparents, front line workers are silenced by the very establishment that protects pedophiles. That is evil.

Equally sinister? Well documented evidence, witnesses denied testifying in court proceedings, expert witnesses, doctor, psychologist, child care workers, children being coached by seven Child Family Services workers in a room at one time, "nothing happened to you", witnesses never interviewed by police, a former lawyer of Children Family Services sitting as the judge in one case.

Link to press conference, a Calgary Alberta mother desperately fights for her children.

<https://x.com/BlayoneBob/status/1753946434397950079>

Conflicts of interest. Abuse of power. Cronyism. Vehemently protecting bureaucratic colleagues, rather than justice, truth and children. Out of control bureaucracy. As Ministers of government and/or MLAs deflect their responsibility in taking action on this, even though they publicly proclaimed they would take action.

An Alberta victims services worker shares examples of repeat offenders, pedophiles being let out time and time again, over twenty years, in Alberta, Canada, as media - mainstream and independent - protect the political and bureaucratic establishments. Media fails in their duty also, of bringing truth and justice, in defending children from sexual predators.

In September 2023, on public record, lawyer Caroline O'Driscoll spoke before Chestermere City Council regarding the sexual predation of children, of her family and also within First Nation communities. One of the alleged pedophiles held a high ranking position within Alberta Health Services, head of communications for Alberta's Chief Medical Officer of Health.

Why would UCP MLAs, NDP opposition, Conservative party of Canada MPs, RCMP, Municipal police, Children Family Services, Crown Prosecution and Alberta Health Services remain silent on that, of a lawyer's testimony of child sexual predation? How can that be?

We know the answer. Alberta pedophiles are being protected by:

- Alberta Crown Prosecution and Justice System
- Alberta College of Physicians and Surgeons
- Alberta government & opposition UCP/NDP
- Alberta Health Services

"These are the people protecting child sex abusers in our beautiful Province of Alberta. I published three articles on pedophilia, child sex abusers and child pornographers at the highest levels of the Alberta healthcare system. These went viral internationally, read by millions all around the world, yet completely ignored by Alberta's mainstream media." - Dr William Makis

February 2, 2024 Press conference Calgary, Alberta.

<https://rumble.com/v4b6fk3-repaired-press-conference-protecting-alberta-children.html>

A mother went public with disclosure of alleged sexual predation of her children. This mother is a professional, respected among her professional peers, including doctors and psychologists. "If this can

happen to me, it can happen to anyone.”

Reporting the sexual abuse, the children were taken, apprehended by Children Family Services, justice system and Calgary police services, even though a forensic investigator in child sexual predation stated he ‘believed criminal charges could be pressed’. The alleged pedophile in this case? Another individual holding a high ranking position within Alberta Health Services; AHS IT Security.

Alberta government and opposition know children are being sexually preyed upon, that paedophiles are being protected within the bureaucracy. They know, and do nothing.

Imagine your child tells you they’re being sexually abused, the alleged predator has powerful connections, protection within the bureaucracy of AHS, justice, police and children’s family services. Imagine being a mother standing alone against a system with endless taxpayer resources.

Imagine being a grandparent witnessing a vile act against your child and being silenced.

United Conservative, NDP, Conservative, Liberal, Smith, Notley, Poillievre, Trudeau, all of them, they know children are being sexually preyed upon and they do nothing! The next time you defend or champion for these politicians, governments and oppositions consider that.

“This milestone wouldn’t be possible without the countless organizations and individuals who shared their experiences and expertise in our journey with Alberta’s Human Trafficking Task Force,” said Paul Brandt, who is also a platinum recording artist and member of the Canadian Country Music Hall of Fame.”

I’ve made contact with Liz Brandt, spoken with her over the phone and sent text messages. For some reason they too fail to engage with these victims. I’ve asked countless influencers to lend a hand also, to no avail. Protecting the political establishment seems to be their priority above all else. Even protecting children from monsters.

11. Prior to children being Covid-19 vaccinated, ten Alberta UCP MLAs met with Drs Roger Hodgkinson, Robert Malone, Paul Alexander, connected w/Peter McCullough

My last attempt to bring reason and common sense to the Alberta UCP government, to stop children from being Covid-19 mRNA injected took place on November 10, 2021. I’d organized a meeting, connected ten Alberta UCP MLAs with local and international medical doctors, scientists, epidemiologists, pathologists, cardiologists, Drs Roger Hodgkinson, Peter McCullough, Paul Alexander and Robert Malone.

Those Alberta MLAs were Shane Getson, Todd Loewen, Nathan Cooper, Peter Guthrie, Jason Stephan, Angela Pitt, Drew Barnes, Grant Hunter, RJ Sigurdson and Dave Hanson. I need to be clear here to say where those provincial politicians are today. Today, over half of those politicians sit at the government table, on government committees, government whip and as Alberta’s “representative” in Washington, USA. All received salary raises and promotions.

Nathan Cooper, ‘Alberta Government rep in Washington, USA’

Shane Getson, ‘Government Whip’

Todd Loewen, ‘Minister of Forestry’

Grant Hunter, ‘Associate Minister of Water’

Jason Stephan, ‘Standing Committee’s; Alberta’s Economic Future/Public Accounts’

Angela Pitt, ‘Deputy Speaker & Chair of Committees’

Drew Barnes, running for municipal seat in Medicine Hat (2025)

Those politicians failed to defend the lives of Albertans, of Alberta's children, of individuals like Sheila Annette Lewis, and a growing list of other victims against the vile abomination of being forced injected with a vaccine they knew to be potentially harmful, crippling and deadly. That is proven to be so today.

One month prior to that meeting, MLA Getson kept as a secret from those medical experts and from the people of Alberta, that the month before that meeting he himself had a life threatening reaction to the covid vaccine. Getson played that as a political sympathy card during the Ottawa and Coutts Freedom Convoys.

Two months following that meeting my former friends lost my trust and faith forever. Todd Loewen said to me that the reason they would not bring forward the scientific evidence, to give these medical experts an opportunity to sound the alarm to the people of Alberta and Canada, was that they did not want to look like extremists.

Samantha Steinke stated via text, "It's not me you're trying to convince, and it's not Todd (Loewen). I don't believe the majority of people are to the point where they think we shouldn't have the vaccine. The truth will come out and unfortunately yes, there will probably be people who get hurt. One guy isn't going to change it." Samantha Stienke remains to be a UCP Provincial Board Director.

Remember the timeline. November 10, 2021. I was, we were, those doctors were, trying to shut down the covid vaccine program before Alberta children were to be vaccinated. Many Alberta politicians admittedly knew covid vaccines were going to hurt, maim and kill more people, including children, and they did, continue to do, nothing! In fact, here in Alberta, children in government foster care are injected every three months with the latest covid injection and more. Shameful.

Evidence of that meeting can be seen below. In my perspective, this was a genocidal, murdering, betrayal of all Albertans and Canadians, men, women and children. The proven-to-be harmful, cancer, myocarditis, stroke, causing potentially lethal Covid-19 mRNA based injections were added to Alberta's vaccine schedule in January 2024, including for children and babies six months and older!

Dr Roger Hodgkinson has stood true, a man in a class of his own, defender of the health, life, liberty and peace of all people, a practitioner of health who gave it his all. While Malone, McCullough failed, as justice is yet to be served for all Operation Covid-19 crimes against humanity, along with many other bootlickers, they defend the political doublespeaking bs of Trump, Kennedy, Bhattacharya, as mRNA vaccines will continue in some form, as more vaccines are on their way, Trump has open meetings with Bill Gates, shifts America further to a technocratic oligarchy state, and pledges allegiance to Big Pharma, other technocratic overlords and protects pedophiles rather than children.

I'm not sure why many more people are not outraged over all of that. I guess many more need to reflect on how we came to this place, the state Canada and America are in. Until many more people realize governments on the left and right, public bureaucrats and corporate interests are abusing, stealing and killing them, our trajectory will not change. People are politically tribalized, manipulated to point the finger at the left or right regimes. I was once there also, blind, caught up in political tribalism, angry at the left side of a uni-party political establishment.

12. Summary of the globalist Alberta/Canadian coup

1945, [International Monetary Fund](#) (IMF), financial agency of the United Nations

1948, World Health Organization; on forming the [United Nations in 1945, discussion was to form a global health organization. WHO's Constitution came into force](#), gaining governing ties to Western public health organizations

1954, Bilderberg Group; attended by Prime Ministers liberal [Pierre Elliott Trudeau](#), Liberal [Lester B. Pearson](#), conservative [Stephan Harper](#), Liberal [Jean Chrétien](#), Liberal [Paul Martin](#), Liberal Minister [Bill Mornéau](#), former Alberta Premier and CCPC Minister [Jason Kenney](#), former Alberta PC Premier [Alison Redford](#), former Saskatchewan Premier [Brad Wall](#), former Premier Ontario [Mike Harris](#), former Premier BC [Gordon Campbell](#), former Premier New Brunswick [Bernard Lord](#), former Premier New Brunswick [Frank McKenna](#), former Harper Chief of Staff [Nigel S. Wright](#), Canadian media mogul [Conrad Black](#).

1968, Club of Rome; [sponsored by Prime minister Pierre Trudeau to draft a plan to prevent a global Limits to Growth crisis](#); where the Climate Change taxpayer funded agenda was created.

1974, [Bank of International Settlements](#), Pierre Trudeau signs Canada, losing Bank of Canada sovereignty

1971, World Economic Forum. Klaus Schwab, a [German economics professor had a bright idea](#). Over the years, WEF was attended by [Justin Trudeau](#), [Stephen Harper](#), [Michelle Rempel](#), [Chrystia Freeland](#), many Conservatives, Liberals, other Canadian politicians, corporate leaders, bankers, academics

1973; [Trilateral Commission](#); David Rockefeller (close friend of Maurice Strong) forms Commission to, "foster a New International Economic Order." Former Governor of Bank of Canada and Bank of England, Mark Carney is a longstanding contributing member.

1973, WEF partners with Club of Rome, providing the vehicle for the climate change agenda; [Davos Reset: New Manifesto Issued for World Economic](#).

1988, International Panel of Climate Change, [IPCC](#); co-established by Alberta Oilman Maurice Strong, merging [the World Meteorological Organization and United Nations Environment Program](#)

1992, United Nations Sustainable Development, climate change agenda, [Convention on Climate Change at Rio's Earth Summit](#). Conservative Prime Minister Brian Mulroney

2002 AB Conservatives; [Climate Change Taking Action](#); reduce carbon emissions 50% by 2020

2003 AB Conservative; [Climate Change Emissions Management Act](#); bringing emissions targets into law

2007, World Health Organization IHR, [International Health Regulations](#), binding law, Stephen Harper; voluntarily signs on Canada, all Provinces. See section below, focus on Alberta.

2007: Alberta PC's, amend "legislation and new regulations required facilities emitting more than 100,000 tonnes of carbon per year to reduce their emissions by 12 per cent. [Companies that failed to reach that emissions target paid \\$15 a tonne into a new climate change fund. Critics in heavy industry called it a carbon tax.](#)"

2009, Alberta PCs, "[Climate Change and Emissions Management Corporation was formed](#) to decide how

best to spend the millions of dollars paid by companies whose emissions exceeded provincial limits. [The money was invested in green energy production, conservation and energy efficiency and carbon capture projects.](#)"

2009, Canada [Sustainable Development Act](#), further binding foundation of United Nations Sustainable Development came to Canada by Stephen Harper and Conservative Government, including MPs Pierre Poilievre and Brian Jean, the former Alberta Wildrose Independence Party leader

2010-2015, Canada's WEF involvement continues, Stephen Harper sends Conservative "[Ministers to lead several sessions related to the WEF's](#) theme: The New Global Context."

2010, UNDRIP; United Nations Declaration on the Rights of Indigenous Peoples, Stephen Harper, Conservative government endorse

Former Alberta Conservative MP, Chief Wilton Littlechild was a member of the 1977 Indigenous [delegation to the United Nations, working on the UNDRIP](#).

2010, [Alberta Land Stewardship Act](#), Alberta Progressive Conservative Government bring into law

2014, [World Economic Forum Alberta](#) session, first 'energy and climate change' meeting, brought to Alberta by Alberta PC Government under leadership of Allison Redford and Wildrose Party under leadership of Danielle Smith

2015, WEF/[United Nations' 2030 Agenda for Sustainable Development](#), Stephen Harper, Pierre Poilievre, Conservative Government, bring final stage of foundation

2015, Stephen Harper commits fossil-fuel rich Canada to "[end all production and use of carbon-based energy](#)."

2015, Alberta connection to global Architect; Alberta Premier [Kenney's Chief of Staff, Jamie Huckabay](#), worked with [Joseph Stiglitz](#), former senior advisor to President Bill Clinton, co-chair of the [The High-Level Commission on Carbon Prices](#), with the [WEF](#) since 1995, IPCC, former Chief economist at World Bank

2016, AB NDP; [Oil Sands Emissions Limit Act](#); capping carbon emissions on Oil Sands, this limited future production, killing investment

2016, Canadian Liberal government [announces federal carbon tax](#).

2018, [Canada joined United Nations member states](#), adopting a new negotiated agreement on international migration, brought forward by Justin Trudeau Liberals.

2019, WEF Alberta Carbon Capture, [Carbon Engineering Ltd](#), WEF supported, funded by government, sustainability-focused agencies, private investors, including Microsoft founder Bill Gates and CNRL's Murray Edwards.

2021, UNDRIP; [United Nations Declaration on the Rights of Indigenous Peoples Act](#) received Royal Assent and came into force, Justice Trudeau Liberal government

2021, Alberta UCP [asking Ottawa to commit \\$30-billion](#) in spending or tax incentives over the next

decade to spur the building of large-scale industrial carbon capture projects.

2011 to 2024, Net Zero Carbon Capture; [Alberta UCP government spent \\$1.8 billion](#), recently another [\\$1.8 billion dollars to](#) a Dow Chemical expansion project, for their Net Zero carbon capture component, Canada's Liberals put in \$400 million.

2020, World Health Organization Covid-19 Pandemic begins, WHO referenced in [Alberta BILL 24 COVID-19 Pandemic Response Statutes Amendment ACT, 2020](#); '63.1(1) In this section, COVID-19 means COVID-19 as described or determined by the World Health Organization'.

2022, [the Emergencies Act](#) was imposed, Trudeau's Liberal government advised in enacting EMA by United Nations appointee, Dr Barbara Perry, expert in conspiracy theories

2022, Alberta UCP Government declare "[Alberta's tax on industrial carbon dioxide emissions will triple by 2030.](#)"

2022, Canadian National Digital ID trust; [ATB Ventures, innovation arm of Alberta-based ATB Financial](#), governed by Alberta UCP government, in collaboration with Canadian Bankers Confederation and World Economic Forum.

2023, Covid-19 Pandemic Orders; Alberta's highest court, "ruled the infringements that did occur were "amply and demonstrably justified" under the Charter.

Role of politicians in pandemic restriction decision-making breached Alberta Public Health Act: Calgary judge; Orders ruled to be in breach because final say over public health given to elected officials."

Justice Romaine ruled that even [if the proper decision-making framework was in place, Albertans' constitutional rights would not have been violated.](#)"

2024, Alberta Public Health Act (PHA) Premier Danielle Smith and the Alberta UCP government amend the Public Health Act, **failing** to address medical bureaucratic authority; the amended PHA, "allows cabinet to reverse or vary any public health decision made by any decision maker under the act, **outside of a declared state of Public Health Emergency.**"

"During a declared state of Public Health Emergency: medical officers of health, including the Chief Medical Officer of Health, **retain final decision-making authority** for orders impacting a specific person or persons or a specific public place."

2024, May; World Health Organization's [International Health Regulations amendments](#) come into effect, enforcing further, that upon a declared state of public health emergency, or of 'climate change emergency, or other', whereas;

"expanding the powers of the WHO Director General to declare Public Health Emergencies, override the State (Nation's) Parties themselves." In other words, Federal and Provincial Chief Medical Officers of Health of Canada will be ruled directly by the World Health Organization.

The following testimony Vincent Gircys at the Canadian National Citizens Enquiry. 32 year member Ontario provincial police, trained in forensic investigations, number of commendations throughout 32 year career, retired with Police Exemplary Service medal:

"The World Economic Forum Canadian leadership members is of concern. Klaus Schwab, the head of the World Economic Forum, had made a comment that we have penetrated over half of the cabinet.

The comment had come up once in Parliament, asking the question relative to this connection. Immediately, an excuse to some microphone related problem. That question has never since come up, by any party in Canada. It appears that there are members possibly in other political parties as well, relative to the World Economic Forum"

Organized crime now is very sophisticated and generally those people that are very, very wealthy with incredible power and access are positioned very well to be very effective criminally. Is there any evidence to suspect reasonable suspicion of the need to investigate? Potential criminal conspiracy? Yes we believe there is. Absolutely."

Vincent Gircys' testimony Canadian National Citizens Enquiry (Clip)
<https://share.icloud.com/photos/01dQxLHMjz6kfjbNPPQ8kf0A>

13. Who I am, personal testimony of wading through the political swamp

Who am I? Here's my long winded but necessary to tell my story rant. Firstly, everything I say and write, in my own opinions, perspectives and testimony, are also supported by my own evidence, my own receipts, recording, emails, texts, etc.

I was born and raised in Alberta Canada, grew up dirt poor on a humble farm, lifted myself up through the opportunity of Alberta oil and gas. I'm of a Metis, Irish and French descent, husband of thirty four years, father of two, uncle to forty some, friend to many and a man of my word. While humanity falls further to the tyranny of the few, like a growing number of others, I bend the knee to no man or woman.

Through the tyranny of all things Covid-19, catalyst to an awakening, I never once put on a mask/muzzle, stick anything up my nose or injected myself with poison, just because the government told me so. I walked away mad as hell from the Alberta UCP party/government on May 14, 2020. No matter how many screamed at me for not obeying the insanity, I drew my line in the sand, found my voice, defended my children and anyone else who needed a helping hand. I'll never forget those days, the cowardice and tyranny of men and women, in government, public bureaucracies and in the people themselves.

I walked through the political arena, first with the Alberta conservative party/government then the path of Alberta independence, first co-founding Alberta Prosperity Project then the Alberta Independence Party, seeing the path of a referendum on Alberta independence as a lever for every province. Seeing the delay tactic of that today, understanding it would take years and years to play out. Finishing my political walk as an independent. I saw the very worst of people come out in politics time and time again. Seeing a strong true grassroots movement taken out from the inside, twice. In my opinion, the Alberta Prosperity Project and the Independence Party are now loyal to the Alberta United Conservative government and the UCP government is ruled by the Conservative power structure of Canada. In the same way any Liberal and/or NDP provincial government and opposition is ruled by their federal parties also.

From the drafting of it in the late 1960's, for or over fifty years there was collaboration to restructure Canada and Alberta to fit within a global governance structure, via working papers of a global oligarchy created through NGOs, UN, WHO, WEF, etc, whether handing Canadians over to the global central bankers, laying the framework of all things Covid-19, lockdowns, quarantine, vaccinations, laying the

foundation for climate change carbon tax funded fraud, SOGI, mass immigration, MAID, UNDRIP, National Digital ID, CBDC, UBI, etc, Harper, Trudeau senior/junior, Carney, Mulroney, Martin, etc, along with all other politicians, Conservative, Liberal, NDP, Bloc regimes, and all provincial governments, all betrayed the life, liberty, peace and prosperity of all Canadians. F them all.

I'm a proud Metis, proudly of Irish and French descent also. And although I didn't grow up on an Indian reserve, I grew up poor. Through God's gift, through the bounty of Alberta's oil industry, like many others, I and my brothers and sisters were fortunate to have opportunity, hope. We worked hard and with that, were lifted up.

My Grandmother was Metis, of Cree ancestry and my Grandfather of Anishinaabe, Ojibwa. Our fourth Great Grandfather was Chief Black Powder and third Great Uncle Chief Big Bear. These are two historical Native Indian leaders, known to be unifiers of tribes, and also the last holdouts of the signing of Treaty 6. They were reluctant to lose their independent way of life, their freedom.

In 2014, after selling my Alberta oil and gas service company, I became very involved behind the scenes in politics at the end of the Alberta PC party era, as Jason Kenney was making his way to Alberta. I supported Kenney and the man who would become our Peace Region MLA, a politician who was parachuted in and who had worked for Kenney as a staffer for six years when Kenney was a CPC Government Minister.

I walked away on May 14, 2020, in absolute disgust for the Alberta UCP government's fascist governance tactics over the people of Alberta. No matter what your position was on covid I hope at the very least we can all agree that is an abomination of "conservative" governance?

In left wing governments I see a communist ideology, and in the right I see fascist, in working together to transition Canada there was a merging of the two. Did fascists truly lose in WW2? "[Operation Paperclip](#)", following WW2, saw sixteen hundred high ranking Nazis being sent to the United States, given highest level security clearances in the Pentagon, NASA, Whitehouse, also dispersed in the bureaucracies of public health, academia, etc. Thousands more were sent to Canada, Africa, etc. Chrystia Freeland's granddad was a [Nazi collaborator](#) also.

Consider that and consider something else. In September 2023 the Canadian Parliament, the entirety of elected federal representatives of the people of Canada, Conservatives, Liberals, NDP and Bloc, along with President of Ukraine Volodymyr Zelenskyy, gave a standing ovation to a WW2 war criminal, a Nazi, [a man who fought in Adolf Hitler's Nazi forces](#), Yaroslav Hunka.

This is nothing new in Canada. What is the spirit of communism/fascism but the spirit of wanting to rule over other people. Let's talk about Canadian history a bit, how my own ancestry is tied into that and how yours may be also.

Like I said I'm of Native Indian, but also Irish and French. My wife is of Ukrainian and Norwegian ancestry. Our mothers, fathers and ancestors were farmers also. My Native Indian ancestry goes back to my great grandfather Chief Black Powder and great uncle Chief Big Bear, the last holdout of the signing of Treaty Six. Like my great ancestor Big Bear, I learned of another betrayal unfolding today, a deeper loss of liberty. Where rather than a paper Indian Pass, Canadians will be beholden to a digital version of that.

Over a hundred and fifty years ago my great uncle Chief Big Bear recognized the fall of liberty in Canada not just for his people, but for all people. Big Bear was the last holdout to the signing of Treaty Six, he

believed Canada belonged to all people, not just the few, the less than one percent who divided, conquered and stole the life, liberty, peace and prosperity of the many.

One hundred and fifty years ago, in negotiations with the government of his day there are two historical quotes of my great uncle which resonate passionately in me today. "Come to us as men. Do not come to us with trinkets" and, "I will not live with a noose around my neck". Meaning he would not be a slave, a prisoner, a dog to the government, to kings.

Sadly, the reality of the outcome of that time were Indian treaties, Indian Reservations and Paper Indian Pass, having to ask permission from the government to leave their communities. Residential Schools led to a broken and betrayed people. Once proud and nomadic people, Canada's Native Indian people were imprisoned on small plots of land (communist reservations), their individual liberty and spirit broken, children taken away ffs, many atrocities committed at residential schools, sexual and physical abuse, a conversation my aunt saying my grandmother never wished to speak of, of seeing evil abominations playing out. How about we recognize that rather than getting sucked into a bs argument about mass graves?!

As a follower of Christ, I say Canada was far from founded on Judeo Christian values. Canada's Native Indian people are held as prisoners within communist communities, as dysfunctional as can be imagined in many cases, living without hope, many elected chiefs and councils governing no differently than our governments, trained by the system of corrupt, self-serving politicians and bureaucrats, looking after their own interests, neglecting their own people, as all politicians do. Canada's Native Indians have lived with a noose around their necks ever since the Indian Act. And this is the history lesson which repeats today, as Canada's set to become one big reservation. Rather than a Paper Indian Pass, Canadians will be assigned a Digital ID version of that.

While I almost dropped out of social studies class in grade twelve, Canadian history fascinates me today. The history of the fact that not enough of our Canadian ancestors chose not to stand together to oppose the tyranny of kings, while Americans choose the different path. In Canada, only a handful of Native Indians, the Metis, led by leader Louis Riel, and Western Canadian farmers stood together. European settlers who'd fled fascism/communism and came to Canada to find liberty, peace and prosperity and then saw liberty stolen once again by the same tyrants. Indians were used to roaming about freely, and the Metis also, but as history tells the story, they had their asses handed to them, Riel hanged. Because too many other Canadians made the decision to be ruled by far less than one percent. Big Bear saw the writing on the wall, knew the battle was lost before it even began.

I'm grateful to God for opening my eyes to the truth of the world and to His truth above all else. 1 Samuel 8 says it all for me today as to where society is. When a society chooses to be ruled by wicked, greedy, evil men and women, chooses to be ruled by evil, 'lesser' of evil or otherwise, when society still has its face turned away from God, society reaps the fruits of choosing to be ruled by the less than one percent who would send their sons and husbands to war, turn their daughters and wives into servants, over tax, take their life's work, debt enslave, would destroy their life, liberty and peace.

Yes, Liberals/Carney and whoever's in charge of the NDP communist manifesto pushing regime these days also speak fluently in globalism, climate change, taking your Covid-19 jabbies, etc. So does the mf'ing Alberta UCP government, and yet I see far too many kissing the arse of the leader of that regime, of right regimes in general. Left and/or right regimes are those who do nothing to assist any and all poisoned with Covid-19 vaccines, who continue Covid-19 jabbing children and babies in foster care, who

did nothing for Alberta and Canadian Freedom Convoy political prisoners, who continue protecting elite pedophiles, bring forward digital id, etc, left and right criminals one and all.

I'll say here once again, I could give a rat's ass who's leading whatever party, whatever government, or whatever opposition, to hell with that. The political organizations overall are criminal, the uni-party establishment overall is criminal. Good people in politics? Really? There's no one speaking out against the crimes above continuing to play out. Not any politicians, not any bootlicking volunteers, no political influencers, not left, right and so-called mainstream independent media, and not nearly enough voices of opposition from the population of the people themselves (left and right).

I see my former colleagues at [Alberta Prosperity Project](#), Dennis Modry and Jeff Rath met with Trump's inner circle? Let's cut through the bs in that also. Do you honestly believe the "Independent Alberta" they've in mind includes your individual independence? Do you honestly believe this structure of heavy handed, greedy, power hungry government and people will change, or that the path of independence they speak as through a bs Clarity Act can play out in time to stop all the above, all the above which they never talk about. If they wanted to inspire a true grassroots movement/uprising, they would do so.

If your head isn't spinning yet trying to make sense of all of that political theatre, then you're not trying hard enough. Or, maybe you're one of those taking the political theatre bait of a pipeline promise distraction, falling for pipeline political theatre provincial battles again. Maybe you're distracted with the ceasefire announcement in the Middle East, the too little to late peace deal only after Israel razed Gaza to the ground, only after the oligarchs are getting prepared to survey the rebuilding of Gaza. A dedicated Trump building and all.

As deadly games of political theatre play out, as the liberty of humanity is further pounded into oblivion, more and more people wake up to understand there's no good guys in either left or right regimes, only different branches of organized/democratized criminals serving not you or me, but serving themselves and those who ultimately pull (and grease) their strings, left and right regimes equally.

While you are divided, conquered, deceived and bewildered, Carney, Trump, Smith, Moe, Eby, Netanyahu, etc, all of them together serve the same masters, globalists, central bankers, technocratic corporate oligarchs, elite Zionists, the less than one percent, call them what you will, old money mixing with new, king makers never changing, all serving a lust for more money and power.

So what's the bigger picture playing out here? The overarching agenda rolls on virtually unopposed, on schedule, as left and right politically tribalized camps cheer on and/or defend their party's different packaging. Your final trappings will include digital id, the final digitization of the monetary system, a programmable-surveillable dollar, and a social credit score to go along with it. When it's all ready, when they're ready? Flip goes the switch.

Switzerland is considered one of the most democratic countries on earth, sometimes holding multiple referendum votes in a calendar year on key policies. In a referendum regarding an expanded government digital id, the Swiss voted in favour of digital id in a 50.4% to 49.6% vote. It hasn't passed quite yet because fifty percent of the population would be losing their shit.

Populism/Democracy only works if people inform themselves and see through the bs when the government attempts to pump propaganda into their minds. What this shows me is that fifty percent of Swiss are prone to propaganda/manipulation, believing digital id will never be used for nefarious intentions. Even on the heels of Covid-19 Vaccine Passports, while fifty percent see through the trap, fifty

percent of Swiss want to see, "Show me your papers!" What's the uptake in Canada and America? 60% in favour? More, less, where are you at?

Covid-19 bioweapons, digital id, programmable-surveillable digital currencies, 15 Minute Smart Cities (Canada), Freedom Cities (US), the propaganda is being pounded into the people on both the right and the left.

So who am I? Although I'm a Christian, I'm far from a Saint. I get angry, I swear and name names. I remind some people not to take my kindness for weakness. Anyone who knows me knows that. I'm not a pastor or politician, I'm just a regular guy, a husband, father, uncle, brother, friend and neighbour who cares about the state of the world, who sees many being hurt in many ways, children above all. I see clearly the road we are heading and the fact that elected and unelected criminals are getting away with abusing, oppressing, thieving, murdering and stealing away the life, liberty and peace of all of us.

When the day comes, when enough of you have had enough, what should be their punishment? I'm not suggesting a violent revolution or that the lives of these criminals should be taken. If I was their judge and jury I'd start first by first stripping away all their wealth, possessions - everything - draining their bank accounts, making homeless and penniless every single one of these political, bureaucratic, corporate criminals. Lengthy jail terms for sure. I heard Ecuador is a good place for that. Serve justice to them along with any and all collaborators, media and paid political influencers. Any knowing contributing criminal to the many crimes against humanity.

Fear does nothing to me, but I do ask God to forgive me for my anger, ask Him to guide me in not letting anger consume me. Would God forgive righteous anger in calling evil evil, and how about those who perpetually are doing evil and/or enabling evil? I'll end with that spiritual question for my Christian brothers and sisters to ponder.

Where I'm at today is also in wanting to cut through the bs, so I ask any and all reading this to share it out, and to talk about all the above and then some in your day to day travels and lives, because in regards to your final trappings, time is of the essence. Today, I no longer seek public office, now seeing that to be a dead end distraction. As I did at the podium of politics, I'll simply continue sharing the truth of all the above with as many as I can. That's all I was doing in my political walkabout, as well as advocating for those who needed a voice and having conversations and meeting thousands of neighbours/friends along the way.

Independence for me today is much deeper, it's without borders, it begins within every man and woman as individuals, begins in our homes, our communities, regions, provinces, country and beyond. These days, my time, energy and capital goes into building a farm, a year round greenhouse, growing and raising our own food, building an independent local community, connecting with neighbours/friends, preparing for the coming storm.

Rather than politics, I believe a cultural grassroots movement is needed first and foremost, an awakening to the truth first, and a coming together of all of us. Here's my personal pledge today. I pledge allegiance not to a flag or government, but to defend the life, liberty and peace of all children, women and men, without borders, never to stay silent when any are abused, harmed, oppressed, murdered and/or stolen from, defending equal justice for all, on the foundation of God's laws.

Regarding my own faith. I choose to follow to the best of my abilities, the teachings and doctrines of Jesus Christ, to defend also the God given liberty, the free will of all others to believe, or not to believe, in

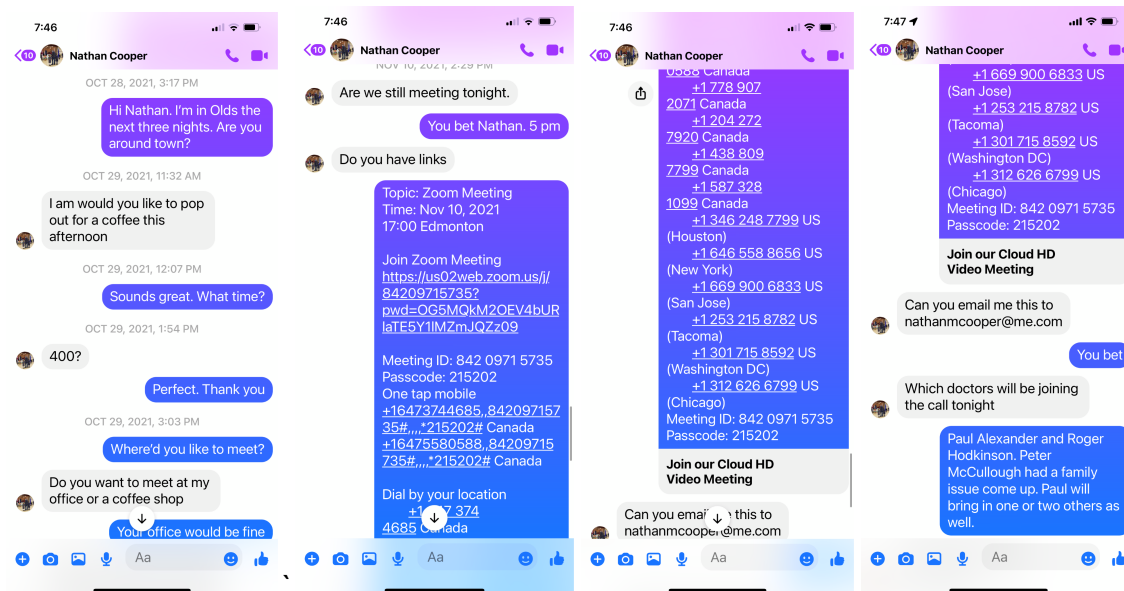

whatever they may choose, for as long as their faith doesn't impede or interfere with the life, liberty and peace of all others.

God bless, peace to you all.

MLA Shane Getson

Hello everyone,

Dr Alexander and Dr Malone - MLA Shane Getson would like to table your research in the Alberta Legislature before the fall session ends. Please advise if the information below is accurate as to what you would like Mr Getson to present. Shane, there are well over one hundred studies to be found below.

Shane, let me be the first to say thank you. Thank you for being of an open mind to have taken the time to meet with Dr Robert Malone, Dr Paul Alexander, Dr Roger Hodgkinson and Dr Dennis Modry. Thank you for tabling the science of these international leaders of the day. Thank you for introducing these internationally renowned medical scientists, as well as the inventor of mRNA technology, to the Government of Alberta and to the people of Alberta.

It continues to be dark and challenging circumstances we navigate through. Hearing the horrific and heartbreaking stories of vaccine harms unfolding brings me to my knees, such deep sadness. Let's all hope and pray that this moment is the catalyst to pivoting on these tragic circumstances we find ourselves in, that the actual experts of the day have the opportunity to question the science of the Minister of Health, Dr Deena Hinshaw and Premier Kenney.

Best Regards,
Bob Blayone

Re: MLA Shane Getson

All,

Many thanks for the efforts, and pulling the list together of the studies.

I will table then this week, and as such, it will become picnic record and **act as source documents on the subject.**

Last week I tabled two other testimonies from doctors looking for exceptions due to health reason who were denied, as well as another with drastic adverse effects.

My question to the ministry was delayed twice last week but it will be tabled this week in specifics for an appeal process outside of the college / ahs for Those seeking exception.

Many thanks again,

MLA Getson

Shane

Bob, we did have a heated debate yesterday about this. You know I always appreciate our talks and discussions, even when they are heated and passionate. You also know I don't agree with vaccinating children, and will NEVER have mine vaccinated. No matter if that means they will miss out on things, because that is a sacrifice I choose to make for my family. I have watched the Joe Rogan interviews! It's not me you are trying to convince and it's not Todd! Unfortunately MSM has a monopoly and choose to do what they do, let's have a government willing to stop that?

15 3 People >

Unfortunately MSM has a monopoly and choose to do what they do, let's have a government willing to stop that? I believe that the overwhelming majority of people are done with the covid crap. But it took them time to get there as well. On the other hand I also believe the majority of people are not to the point where they think we shouldn't have the vaccine at all(but I do believe they will also get there) the truth will come out and unfortunately yes, there will probably be people who get hurt. But the tide is turning, and I know we would like it to get there faster. But one guy isn't going to change it today and I know you know that.

Done
