

Identity Theft Flowchart/Diagram

Someone stole your identity, now what?

You may work with **one other person**. Who are you working with?

Use the links below (or **others you find**) to learn about strategies for recovering from identity theft.

- [IdentityTheft.gov](https://www.identitytheft.gov)
- [Victims of identity theft: 5 steps to take action](#)
- [Recovering from Identity Theft](#)

After you've gained enough knowledge, use [Lucidchart](#), Google Drawing, [Canva](#), [Draw.io](#), or [another tool](#) to create a flowchart or diagram that helps or gives advice to someone who's been a victim of identity theft. Include **five or more strategies/steps** in your flowchart/diagram. Insert your flowchart/diagram as an image in the space below. You will need to download or export it from whatever tool you use. You could also take a screenshot if needed.

Send me your final project on Classroom. Examples of a flowchart and diagram can be found below.

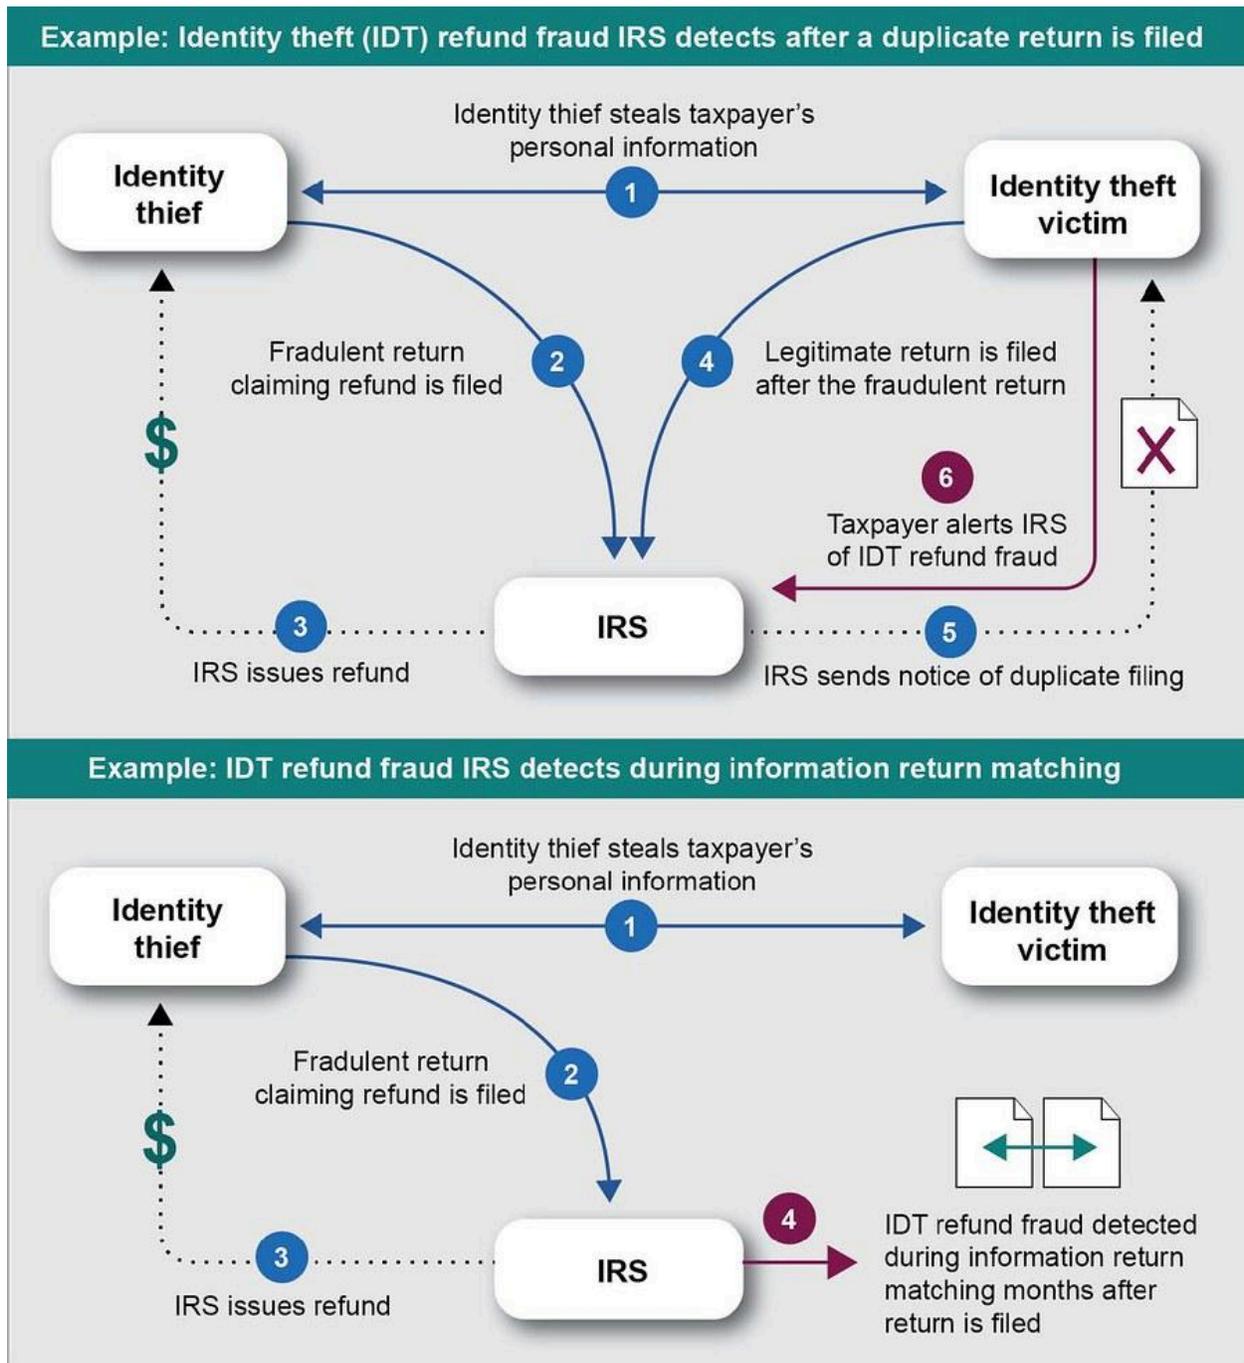

Guiding Questions (Assessment):

1. Did you include five non-plagiarised strategies for recovering from identity theft?
2. Did you create a visually appealing flowchart/diagram?
3. How well did you incorporate non-copyrighted media/visuals?

12 Pts
