"Within Just A Few Minutes Of Starting This Breakthrough New Software, You Could Be Getting FREE Traffic And Daily Commissions On Complete Auto-Pilot..."

Hey Guys,

YOUR NAME here...

Today I want to introduce you to a new breakthrough software I just discovered.

It's really unique and it's really powerful, too. Plus it's very different from all the rehashed GREEDY GURU apps you see everywhere.

And I really do mean it's different. Look, I have been around the block more than a few times and I've seen my fair share of products come and go. I've been doing this since 2006. Back then I was a complete amateur. A "newbie" as they're called. Like you might be now. I worked at a coffee shop making around \$3 an hour with tips. Barely enough to pay the bills. It's why I started looking for a way to make money online. Anyway, since then, I've seen SO many types of systems, and softwares, and apps come and go.

And I am being completely honest with you when I say, this one is different... and better than a lot of software you may have tried recently. I really like it! And because of that I've put together some kick-butt bonuses I think you're going to love.

I'll talk about the bonuses in a moment.

First let's talk about this breakthrough new software...

It's called **Onyx**...

Onyxx is a bizarre name for a breakthrough video software, but it's really just an easy software that can give anyone fast and easy free traffic and sales with only a few clicks and **in as little as 24 hours or less** (PLUS you don't have to create any content or do any real "work" at all).

The software does all the work for you. So, while the software generates free traffic and sales you can just spend your valuable time doing the things you REALLY want to do.

I know, this may sound like hype. Like something your typical greasy, GREEDY GURU might say. You know, "*push a button and wake up tomorrow morning on your own island*" or something else impossible to believe.

But this is actually just a simple software that delivers real, solid, predictable results.

And, what's even MORE exciting is...

Not Only Does Onyxx Create Instant
Videos In Any Niche... But It Also
AUTOMATICALLY Ranks Them On Page
#1 Of Google To Drive FREE,
Cash-Generating Traffic Forever!

Not to mention that I am testing and using Onyx and seeing some pretty good results with it, too. And I'm not much of a video guy either. I'm fairly technically ignorant. So I NEED a video software that does *everything* for me. Including creating the video, loading it to YouTube and then raking it for me. I am NOT a talented video marketer. Far from it. I'm not really a video marketer at all. And that's not good considering...

9 out of 10 people online would rather watch a video than read text!

But Onyx makes it simple and easy for anyone... even video ignorant people like me. And if it can work for me... I AM 100% CONFIDENT it can work for YOU, too!

Now, I know you may be skeptical at this point. That's normal. And healthy. You've got every right to be. I've spent a lot of money on products that were **dissappointing** and didn't deliver on the promises they claimed.

But, in my personal opinion, Onyx absolutely DOES deliver amazing results. You really can generate free traffic and sales **rather easily and very quickly with just a few clicks**. Even if you've never made a single video in your entire life.

Okay, so, let's talk about who's behind this product...

Who created it...

My friends from Team Black Belt, Art Flair, Pallab Ghosal, and Ram Rawat are guys that really know their stuff. They're always putting out amazing products that really deliver. And Onyxx is their newest amazing creation. I shouldn't say it's brand-new, because they've had it for a while. But they've been testing it to make sure it works. Which is another reason why I really love Team Black Belt, because Everything they create, they endlessly test, to make sure it works before selling it.

Team Black Belt creates products that ACTUALLY work and that make people lots of money...

They are great guys and they're always on Facebook sharing their lives and adventures... I know Art Flair is always sharing his marathons... the guy runs like 100 miles a day... I find that amazing because I get winded opening a beer. Anyway. It's great. If you get a chance, Friend them on Facebook. You won't regret it.

So, that's another reason why I highly recommend this amazing software, is because Team Black Belt, are the mastermind geniuses behind it.

So...

What Exactly Is OnyxX?

Now, what exactly is OnyxX? It's an unbelievably simple auto-pilot Video Creation Software that instantly creates professional looking videos, uploads them to YouTube AND ranks them to #1 on Google and YouTube. It's "work free" traffic and sales.

So, basically, without you having to do anything other than clicking a few links, you can get loads of highly targeted free traffic and daily sales almost immediately. I've seen people (even video-ignorant goons like me) getting tons of visitors and hundreds of dollars per day in as little as 24 hours.

Onyxx = It's a simple software that can give you near-instant **FREE** traffic and daily sales to help you begin to solve **ALL** your financial problems within the next 24 hours, no matter what your situation is **RIGHT NOW!**

With Onyxx, you **don't** need a website, you **don't** need an email list, you **don't** need to create products, you **don't** need Facebook, and you **don't** need to worry about traffic (it's built in).

Onyxx is a **BRAND NEW** software that, as you've seen, makes it easy for **ANYONE** to literally go from scratch, to *generating FREE traffic and*

sales within 24 hours. (It **only takes a few minutes** to set up and get rolling).

Onyxx does **ALL the hard work for you**. It creates videos, uploads them to YouTube and then gets them ranked on the first page of Google.

Works for **ANYONE** regardless of your previous skills or experience.

It's perfect for newbies or anyone who's ready for something that actually works.

Is incredibly fast. You can have a video up and running in just 5 minutes.

Plus you can create as many videos as you'd like. *The sky is the limit.*

Runs on complete auto-pilot. This is pure passive income with little to no work involved at all to get it going.

So Team Black Belt has left nothing out with this offer. *Everything* is included.

It's really pretty amazing and so effective. Especially compared to a lot of other junk you see out there. And it gets my highest recommendation. Which I don't give out a lot. I really do think that this system could **work wonders for a LOT of people**. If they give it a chance. Hopefully they will, because I truly believe it's worth it.
