

60-Day Blitz

On March 11, as much of the country was heading into “lockdown” mode, the markets were tanking, and real estate agents were beginning to panic, the Guerilla Realty team got together and asked “What can we do?”

Our answer was to shift into overdrive and deliver more free value to agents over the next 60 days than we normally do in 1 year (which is already a lot). What follows is the accelerated project pipeline that came from that meeting. Our “60-Day Blitz” of value.

Each Friday we’ll release 1 new app, calculator, download, or cool thing that will help you grow your business during this crisis. You’ll need to be on [our email list](#) to get it.
