Abstract

*Provide **an extended abstract** in both English and Thai, each no longer than 500 words. This ensures that international readers can understand the content of the article written in Thai through a comprehensive overview.*

Graphical Abstract

Provide a single image designed to help the reader quickly gain an overview of the article, summarizing its purpose, results, and key details. Refer to Figures and Tables for further details.

Key Words: keyword 1; keyword 2; keyword 3; ...

List 3-5 relevant keywords. (in Both English and Thai)

Introduction

State the purpose, hypothesis, literature review, and gaps in previous studies.

Research Framework

Authors should clearly define their research design and methodology, detailing data collection and analysis techniques, while ensuring validity and reliability. Address ethical considerations, including approvals and participant consent, and acknowledge any study limitations.

Analysis, Discussion and Results

Present analysis and results clearly and concisely, using visual aids where necessary.

Results can be integrated with the discussion or summarized at the end.

Conclusions

Summarize findings, their implications, limitations, and suggest further research.

Figures and Tables

- *Number each figure and table sequentially (e.g., Fig.1, Table.1), with a maximum of 15 items.*
- *Attach high-resolution images (JPG or TIFF, 300-600 dpi) with the manuscript.*
- *Provide clear, concise, and accurate captions.*
- *Ensure descriptions in figures and tables, including graphical abstracts, are **in English** and self-explanatory.*
- *Preserve the original appearance of historically significant images and **include English descriptions** below.*
- *Obtain permission for copyrighted items; this responsibility lies with the author.*
