---

#### Brazilian history

Until recently, scientists thought Brazil was first settled by Asians about 10,000 years ago. But new evidence shows there were people living there at least 32,000 years ago. Some experts think they may have arrived from islands in the Pacific Ocean.

Brazil was added to the map of the world during the great European explorations in the late 15th century led by Portugal and Spain. When Europeans first reached the coast of Brazil, the country was home to about 30 million indigenous people, or Amerindians. Today, only about 300,000 remain, living primarily in Brazil’s remotest places.

3. **According to the previous text, answer :**  
**Whose home used to be Brazil before ?**  
**(De acuerdo al texto anterior, responde: ¿Quiénes solían habitar en Brasil?)**
