

*(Translated from French)*

Nomination form: for the position of Québec Director of the "Retired Members Guild"

I would like to put my name forward for this position because I care a great deal about the interests of retired members. It is important for retired members to play an active role in the union so we can use our experience and defend our hard-fought gains. I also believe it is important that the experience and expertise of retired members help the current labour movement in its actions.

My plan is to pursue the work I started with this group over a year ago and continue to represent retired members in the Québec region. I want to continue providing my union expertise and advocating for retired members so that we are treated fairly and that our contributions and rights are recognized and respected.

In solidarity,

Johanne Potvin
