

Agenda and minutes DTL Data Stewards Interest Group - Meeting 25

Date: 9 December 2021 Time: 9:30am (coffee) - 9:45 (start) - 11:15 CET	Location: virtual Chair: Ricarda Braukmann & Cees Hof (DANS)
Virtual via Zoom: https://us02web.zoom.us/j/89110969773?pwd=aytpZ0hhM2lGZ0ZjYSthaEgzVldhZz09 Attendees: See page 2	

[Register here](#)

[Agenda and minutes previous meeting](#)

Time	Topic	Comments/results	Owner
09.30	Informal start: joint coffee		All welcome
09:45	1. Formal start and introduction round		Ricarda & Cees
09:55	2. New and Newsworthy	Share your successes with the group; Share insights from workshops and seminars you have visited	Ricarda & Cees
10:10	3. ICYMI	RDM news-bits, in case you missed it	Mijke & Irina
10:20	4. Presentation	DANS training in the Dutch and EU research data Landscape	Cees
10:45	5. Interactive part	Discussion on available training materials and needs [using IdeaBoardz]	Ricarda
11:05	6. Closure/any other business		Ricarda, Cees, Mijke & Irina
11:15	7. IG meeting end/feedback		All

MINUTES

1a. Welcome

- Zoom; try the gallery view — Ilja: perhaps better not to?
<https://dx.doi.org/10.2139/ssrn.3820035> and [Having your camera on during virtual meetings promotes “Zoom fatigue” -- especially among women and newer employees](#) (also helps to turn off self-view ;-))
- These notes are for you! Please add comments, +1s, gifs
- Don't forget to provide feedback (see below, 7. Feedback)

1b. Community Participation Guidelines reminder

- Be respectful, honest, inclusive, accommodating, appreciative, and open to learning from everyone else.
- Do not attack, demean, disrupt, harass, or threaten others or encourage such behavior.
- Issues: report them to Mijke and/or Irina.

1c. Roll call

Add your name to the roll call below

Name / affiliation / social media

- Priit Adler / ELIXIR-EE / @adlerpriit
- Mijke Jetten, DTL/Health-RI, data steward community manager/FAIR manager
- Susana Cabaço/ RIVM
- Petra van Overveld / LUMC Leiden / central data stewardship expert and senior advisor directorate of research policy
- Heleri Inno / ELIXIR-EE
- Philipp Konzett / UiT The Arctic University of Norway / @PhilippKonzett
- Angelica Maineri / ODISSEI (EUR ESSB) / [@AngelicaMaineri](#), angelica@odissei-data.nl
- Maaïke Verburg / DANS - RDM specialist / [@MaaïkeVerburg](#) / maaike.verburg@dans.knaw.nl
- Anke Wegman, UMC Utrecht, Center for Molecular Medicine (CMM), Data Steward (DAC-EGA) / a.c.m.wegman@umcutrecht.nl
- Stijn de Laat / Radboud University Nijmegen
- Anne Aarts / TU/e
- Alex van der Jagt / VU-FGB (sec. KNOP) / N.A.
- Fieke Schoots / Leiden University / @CDSLeiden
- Cees Hof / DANS-KNAW
- Louise Bezuidenhout/ DANS-KNAW @loubezuidenhout
- Celia van Gelder / Training Programme Manager DTL/ELIXIR-NL/Health-RI / [@celia_vgelder](#)
- Evelien Kruisselbrink / UMC Utrecht, Julius Centrum / Data steward and ISO / e.kruisselbrink@umcutrecht.nl
- Eduard Klapwijk / Erasmus University Rotterdam / @etklapwijk
- Marion Feijge / Maastricht University / marion.feijge@maastrichtuniversity.nl

- Pim Scheele, Student at University of applied sciences Leiden / email: pim@datastewdent.nl
- Louis van der Pluijm. Student at University of applied sciences Leiden / email: louis@datastewdent.nl
- Ilja Kocken, Data Steward at Dept. of Earth Sciences at Utrecht University / i.j.kocken@uu.nl @japhir
- Dorien Huijser / Utrecht University Library / @DorienHuijser / @RDMsupportUU
- Irina van Dijk / UMC Utrecht / [Linkedin](#) or i.c.vandijk-9@umcutrecht.nl
- Joanne Yeomans / Leiden University / @fieldworker
- Minna Ahokas / CSC - IT Center for Science (Finland) / @minnamirja
- Siiri Fuchs / CSC - IT Center for Science (Finland) /
- Pauline L'Henaff - Programme Manager FAIR data Health-RI
- Heather Andrews / Data Steward at Delft University of Technology
- Viola Woeckel, Erasmus MC, Data steward
- Carlijn Hofhuizen, Nivel, Data steward/ coordinator data collection
- Ricarda Braukmann, Data Station Manager Social Sciences at DANS
- Dominique Wanders - LUMC Leiden - Datasteward/clinical datamanagement specialist
- Miriam Kos, data steward Donders Centre for Cognition, Radboud University Nijmegen
- Evelien van der Schaaf / Durrer Center, Netherlands Heart Institute & Amsterdam UMC
- Winnie Schats, Netherlands Cancer Institute, Amsterdam
- Anne de Jong, Amsterdam University of Applied Sciences, datasteward

2. New and Newsworthy

Choose a question to answer:

Share your successes with the group? Share insights from workshops and seminars you have visited? What do you need from this call?

- We would like to quickly introduce ourselves and tell you about our initiative in which we let students perform data stewardship duties. -Pim Scheele & Louis van der Pluijm
 - Contact: pim@datastewdent.nl
- Heleri: sharing some lecture materials (that I promised last time). These are meant to be used by the participants. The teaching ones will be coming at some point in the future.
 - FAIR Principles Lecture (3h) slides - <https://doi.org/10.5281/zenodo.5572352> and additional material <https://doi.org/10.5281/zenodo.5769084>
 - How to make your messy data usable? Online course. I had a 1h lecture about spreadsheets and introduction to OpenRefine software. Then they did the practical part by themselves (video lecture they could follow along). <https://doi.org/10.5281/zenodo.5720271>
- DANS/ODISSEI have just launched a survey for data stewards and we would appreciate your input: <https://dans.knaw.nl/en/news/odissei-and-dans-launch-survey-on-fair-support-for-social-sciences-data-professionals/>

- Mijke: Health-RI/Data Stewardship Community: as a health oriented data stewards group, we started to fill out the [Do-I-Pass-for-FAIR](#) survey/benchmark to see how 'mature' we are. Really useful insights
- Celia: EOSC Association [Advisory Groups](#) started in November 2021. The [Advisory Group Research Careers and Curricula](#) consist of 3 TFs, one of which is [Task Force Data stewardship Curricula & career paths](#), where I am a member of.
- (New) Open science escape room: <https://sites.google.com/vu.nl/open-science-escape-room/homepage>
- (Older) escape room about data management: <https://digitalscholarship.leiden.nl/articles/learn-about-data-management-concepts-in-this-online-data-horror-escape-room>
- For those interested in using the FAIR-Aware tool (<https://fairaware.dans.knaw.nl/>) in their training, contact fair-aware@dans.knaw.nl

3. ICYMI

RDM news-bits, in case you missed it

- [Slides](#) 🌲
- Join the [Slack channel](#) to stay up to date! Suggestion: download the desktop app, which has a notifications option and is much more user friendly than the browser version

4. Presentation: DANS training in the Dutch and EU research data Landscape

Links:

- [Link](#) to Slides
- [23 things for research data](#) (tool, [deliverables](#))
- [Essentials 4 data support](#)
- [CESSDA DM expert guide](#) (and [Train-the-trainer materials](#))
- [leren preservareren](#) ("learn to preserve" Dutch only)
- <https://dans.knaw.nl/en/data-expertise/>

Notes:

- Involvement in training at the national and European level: recent developments
- DANS: focus on reusability of research data, including quality of scientific research
- Support: Dataverse platform, EASY platform, Narcis + training and consultancy
- EASY (long term archiving): for all disciplines/domains. 2022 launch of various data stations for richer metadata and better interactions with domain portals. Dedicated managers for each of these data stations
- Training activities: resources, courses, Europe
- [23 things for research data](#): new topics to the original RDA 23 things resources; for different audiences. The tool provides answers to many questions/includes many topics and audiences
- Training course: [Essentials 4 data support](#) Free online version available with extensive content or paid version with personal guidance and (online) training sessions. Bilingual.

- New module on GDPR issues; pilots were done last year (in Dutch first, English version planned); [materials](#) will be available soon
- [CESSDA DM expert guide](#). Designed for social sciences, but is also relevant for a broader audience. The DMEG also has a train-the-trainer package with reusable materials: www.Cessda.eu/ttt
- [leren preserveren](#) (Dutch only)
- <https://demo.dataverse.nl/> training site for the Dataverse(NL) environment;
- [Helis course](#) (under Past courses, see [2021 edition](#)): Celia & Mijke are currently discussing a potential rerun in 2022
- dans.knaw.nl/en/data-expertise
- FAIRsFAIR project: <https://fairsfair.eu/> Lots of training activities and materials
 - FAIR-Aware <https://fairaware.dans.knaw.nl/>
 - F-UJI <https://fairsfair.eu/f-uji-automated-fair-data-assessment-tool>
 - <https://fairsfair.eu/competence-centre/training-library>
 - <https://fairsfair.eu/events/training>
 - <https://www.fairsfair.eu/fair-frameworks-training-programmes>
- EOSC synergy example: <https://learn.eosc-synergy.eu/> → we are looking for testers!
- ELIXIR RDM kit: <https://rdmkit.elixir-europe.org/> → We could ask someone from the RDMKit to briefly present it in one of the upcoming DSIG meetings?
- [DTL](#) will also join RDNL for the courses, also discussion with Netherlands eScience Centre,
- Elixir NL is looking for contributions to the hackathons (Mijke), will share on the slack channel

Questions:

- Heleri (no question, just remarks): 23 things, Essential 4 data support and CESSDA materials are very good. I always consult them when writing my teaching materials. Helis Course was also one of my favourite courses on Data Management and in 2021 in general. If you have a chance, I recommend participating.
 - Finnish DM Guidelines: <https://www.fsd.tuni.fi/en/services/data-management-guidelines/>
- Philipp: How do the DANS Data Stations relate to domain-specific repositories?
 - The data stations are domain-specific repositories using documentation
 - standards etc from specific disciplines
- DANS data stations: what happens with datasets crossing disciplines?
 - The data stations will facilitate findability in all relevant domain stations
- Do you have the specs of the new data stations or is it similar to EASY?
 - Next year, more focus will be on the data stations including training on how to use it
 - Data stations will be based on the Dataverse technology (open source, group) Features will be similar to EASY, but more tailored to each domain (e.g., in metadata fields available)

- More information on the data stations will come next year. Each data station manager is also linked on the website, so you can also contact them (<https://dans.knaw.nl/en/#>)

5. Discussion on available training materials and needs

Links: [Ideaboardz](#), [Excel export](#), [PDF export](#)

- CEDAR information: <https://www.gofairfoundation.org/m4m/>
- PDF of the entries (09-12-2021 11:30) on the Idea boards is available [here](#).

Notes:

- Many resources on RDM, less so on GDPR
- Many institutions make their own, is it difficult to find other resources?
 - There are also already catalogues / toolkits to cluster resources
 - Teaching materials are often more difficult to find/reuse
- Dorien Huijser in chat: I'm not sure it can be prevented that institutes make their own information, since each institution may have different guidelines/policies and some disciplines may require tailoring of the general RDM information
- Fieke Schoots in chat: In the context of the Digital Competence Centers at The Netherlands, it has also been discussed to have this overview of training materials. It is essential to have good (FAIR ;-)) metadata for the materials to make it really useful
- EOSC Future training
- Cees: More thematic initiatives are making training catalogues
 - Fieke: we need coordination on all these initiatives! +1 (Mijke: maybe via the upcoming thematic DCCs, as coordination is one of their important roles? Can we put that in their agenda, as well as on the agenda of RDNL?)
- Ilja: Working on a metadata schema on how to make (meta)data FAIR, but researchers are reluctant. They do find it important but not very rewarding
 - Ricarda: This should be done collaboratively in a broader context to lessen the burden on individual researchers. RDA groups, or EU projects. It's not only work for researchers/data stewards/universities, but archival knowledge and infrastructures also have responsibilities and should be included
 - Petra: LUMC uses Dublin Core, but are looking into moving to CEDAR template for some more information (and to comply with ZonMw requirements in the future) → <https://www.gofairfoundation.org/m4m/>
- Most upvoted note on missing: A full learning path for the data steward, to link competencies with courses that match those competencies
 - Is being worked on. The formalization of Data Stewards is work in progress in the Netherlands. (Project NPOS-F: <https://www.openscience.nl/en/projects/project-f-professionalising-data-stewards-hip-competences-training-and-education>)
 - Philipp: Comment on formalization: In Norway, we are currently working on a national skills framework for research data management

- Celia: What to do with international requests made to national initiatives to help in teaching data management and data stewardship? Maybe it's a possibility to use the DSIG group as a pool to reply to these requests? To dispatch members of this group with specific expertise to specific events/trainings
- ELIXIR is organising material generating hackathons in the near future, for instance on creating resources for deep dive into FAIR and also a Train the Trainer on FAIR. I will share them with you on the [slack channel](#). Participation from Dutch partners (in various disciplines, also beyond the life sciences focus of ELIXIR) is very welcome, and of course you can also benefit from the outcomes and reuse them on your own organisations

6. Closure/AOB

Next DSIG meetings (agenda & registration via the [DTL DSIG website](#))

- Next time, **January 25 2022, 12.45-15.30 CET**, Heleri Inno and Priit Adler (University of Tartu, ELIXIR-Estonia) will chair the DSIG meeting
- Do you also want to chair one of the DSIG meetings? Contact Mijke Jetten (mijke.jetten@dtls.nl) or Irina van Dijk (I.C.vanDijk-9@umcutrecht.nl)
- Feel free to contact Ricarda (ricarda.braukmann@dans.knaw.nl) or Cees (cees.hof@dans.knaw.nl) if you have any questions about the DANS (presentation)

7. Feedback

KEEP: What worked well?

- Liked that we did the brainstorm in the main room and not in breakout rooms.+1
- I like the sticky notes part
- Group discussions
- Links in Cees' presentation to all the available training materials
- *Liked the IdeaBoardz*
- Love the update (ICYMI) from Mijke at the beginning - thanks!

ADD: What new ideas do you have?

- *CESSDA training*
-
-

LESS: What didn't work?

- I think that if there are many new people, it might help to introduce the acronyms that are being used? Perhaps FAIR doesn't need an explanation, but many other terms could do with one :) (I liked that in the DANS presentation they gave a little bit of background on the institute!)
-
-

MORE: What worked well and should we do even more?

-
-
-
