

USA Roundnet Board of Directors Candidacy 2023

Board Commitment: 2-year term (2024-2025), approximately 4-10 hours per month.

If you're reading this, there's a high chance you have a lot of passion for roundnet and have some form of experience actively contributing to the sport. Perhaps you have run a tournament or two, or maybe you have helped build up your local community or club. You may create and share highlights from your gameplay or spend time discussing how to make our sport and community better. Volunteering on the USAR Board of Directors is an opportunity to channel that passion into impact nationwide.

Why do we have a Board of Directors? For one, we have to. On top of the fact that having a Board is written into the USAR Bylaws, it's also a requirement to maintain our 501(c)(3) nonprofit status. Functionally, the Board allows for new people, ideas, and opportunities to continue growing and changing our sport. In addition to taking an active role contributing to and steering USAR volunteers, serving on the board requires helping to set the agenda for a member-driven non-profit to best serve our community. As roundnet continues to grow in the US, it remains critical that USA Roundnet continuously support new initiatives and bring communities together to grow the sport.

[Submit your candidacy for the USAR Board of Directors by November 30, 2023.](#)
