

2023-2024 Perry Elementary School Supply List

Dear Families,

We are excited about the upcoming school year, and hope you and your child(ren) are as well! We are thrilled to welcome your child(ren) to Perry Elementary this fall for a year of learning, discovering, and growing! We have created a list of supplies that you may consider purchasing to help your child prepare for the 2024-2025 school year.

Perry Elementary School will be sure your student has the supplies necessary for success in the classroom, but we know some students enjoy picking out their own materials and look forward to bringing them to school to start the year. The recommended supply lists can be found at the links below:
