To: San Francisco Recreation and Parks Commission

Dear Commissioners,

As a coach of **[Program or School Name]** **[baseball/softball]** in San Francisco, one of the hardest parts of each season is finding a safe, open field. Especially after storms, we lose valuable time.

The Crocker Amazon renovation would change that. Modern turf fields mean no more mud-outs. Lighting means practices can go a little later — especially helpful for families juggling busy schedules.

Kids need structure and outlets. **[Baseball/Softball]** offer that, but only if we have space to play. Crocker has always been an active, beloved park for sports and recreation, and it's also adjacent to McLaren Park's over 300 acres of open space — there's room for all types of use.

Let's make it happen.

Sincerely,

[Your Name]

Coach of **[Program or School Name]**
