

The Forte Academy's Women Latinists program in Florence, Italy was outstanding! The grant money awarded to me by the Classics department allowed me the opportunity to attend this enriching, immersive, and indispensable program. Under the direction of Skye Shirley and Florence Forte, we read the Latin of ladies that normally do not get read in most Latin classes. I was exposed to texts and ideas that I had never encountered before in my study of Latin and the Classics. We explored the places around Florence where these women lived and wrote hundreds of years ago. Truly, it was an unforgettable experience and I am beyond grateful to the Classics department for making this a possibility for me.
