

## What is ClassLink?

For many educational apps students have to type in a password to use them. ClassLink lets students access their educational apps without having to type in their password. Classlink remembers their password for them!

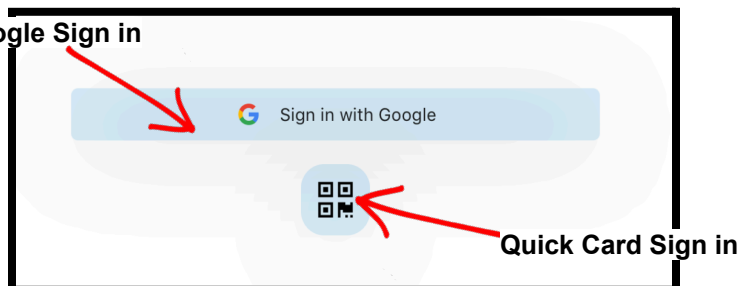

## How do I find ClassLink?

1. Find the Classlink icon on the iPad and tap it.

2. Students can log in either with Google or their Quick Card

Google Sign in

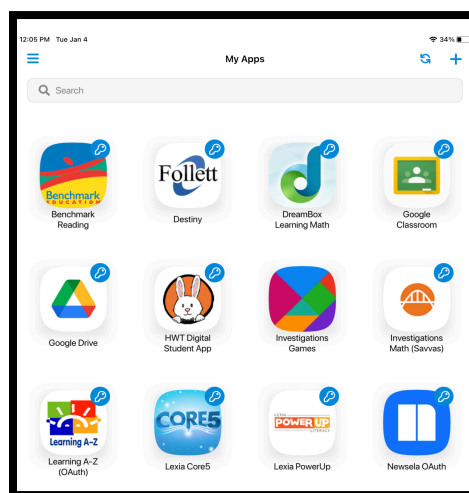

3. If they sign in with their Quick Card, their iPad camera will turn on. Holding their Quick Card in front of the camera will automatically sign them in.

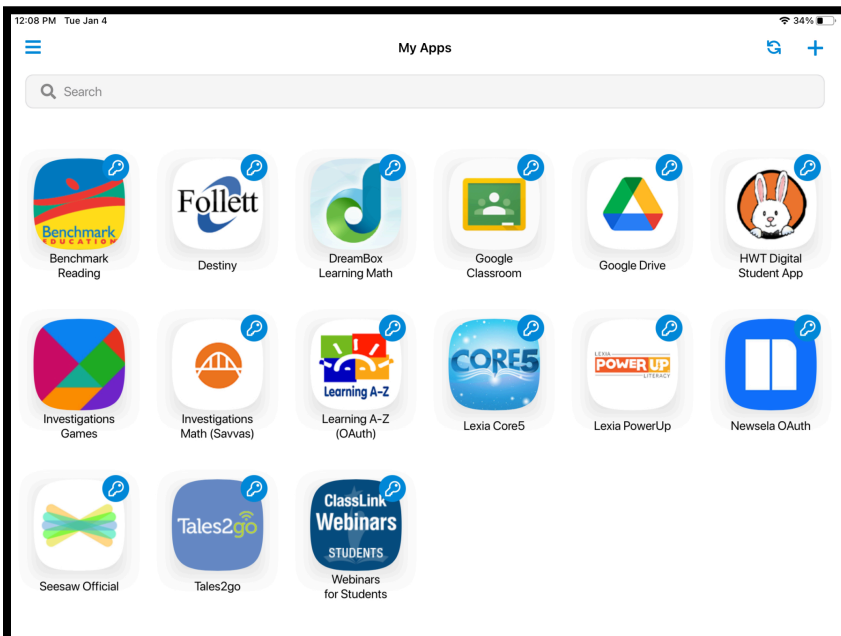

*This is what your child's Quick card should look like. If your child is missing one, contact the teacher.*

4. After your child signs in, they should see a screen that looks like this:

## How do I use ClassLink?

It's easy! If your child goes to any app on their iPad like Dreambox, Tales2Go, SeeSaw, or Typing Club and sees that they're not signed in, they can go to their Classlink page and click on the icon of the app they want to sign into. Classlink knows their password and will bring them to the app and automatically sign them in.

**By tapping on any of these icons Classlink will bring you to their apps and automatically sign you in!**

## What is ClassLink?

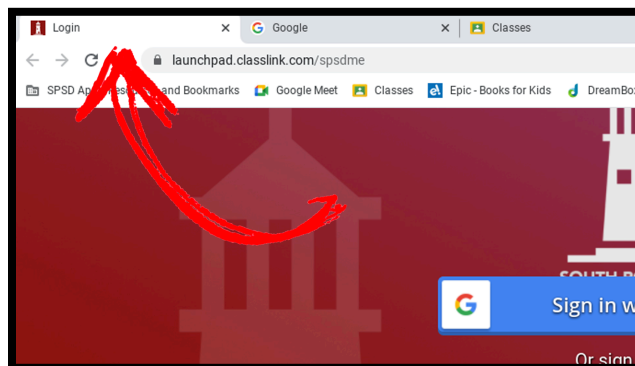

For many educational sites students have to type in a password to use them. ClassLink lets students access their educational sites without having to type in their password. Classlink remembers their password for them!

## How do I find ClassLink?

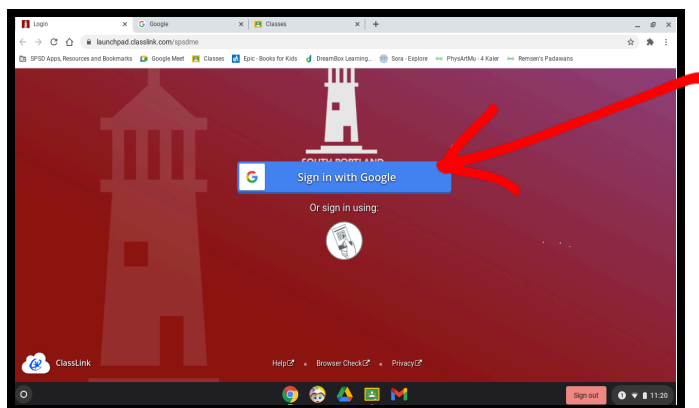

1. When your child is logged into their Chromebook, find the Chrome icon at the bottom of their screen and click it. A browser window will pop up with some tabs.

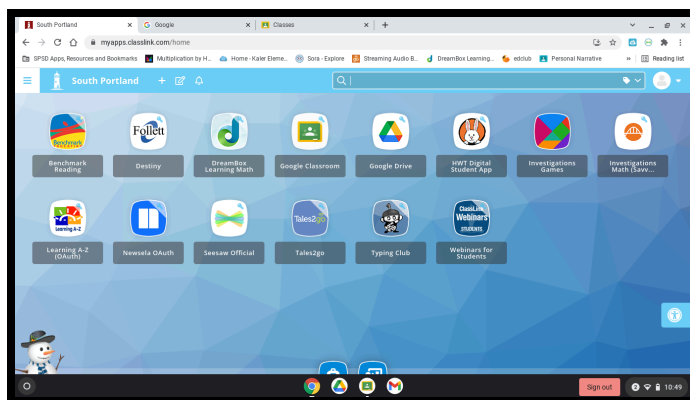

2. Find the tab called "Login" and click it.

3. On this page hit the blue "Sign in with Google" button.

4. Now your child will sign in with their Google Account and will see a screen that looks like this:

## How do I use ClassLink?

It's easy! If your child goes to any educational website like Dreambox, Tales2Go, SeeSaw, or Typing Club and sees that they're not signed in, they can go to their Classlink page and click on the icon of the website they want to sign into. Classlink knows their password and will bring them to the website and automatically sign them in.
