

Brant Discord Report

Situation Summary:

Brant is the current owner of Palace Network, a Disney Minecraft and Discord server advertised as a family-friendly community. As an influential figure on the network, Brant is held in high regard by a majority of it's community members, largely made up of children and/or underage youth. Additionally, a large sum of staff members are minors (and members of the LGBTQ+ community), hence creating a power imbalance amongst server contributors who are most likely either: young, emotionally unstable, and are seeking hierarchical status and powerful positions.

Conner#0001, a minor (14 at the time) and Brant#0001, an adult (25 at the time), had engaged in sexual conversations with the other party and had emotionally taken advantage of and groomed the minor. The party, Brant#0001, is currently a Discord Partnered Server Owner and has completely violated Discord's Terms of Service, the Discord Partnered Server Owner program and federal law.

Brant has reportedly performed the actions demonstrated in the Youtube videos and images (with IDs) below towards multiple minors, and the evidence captured here is a minuscule portion in the years of conversations Brant#0001 with Conner#0001. To most, the greatest concern is the potential future harm Brant can bring to minors and the community at large.
