

Privacy Policy

Last updated: April 07, 2026

1. Overview

Whitney Challenge is a timing game for iPhone. This Privacy Policy explains how the app handles your information. The short version: it doesn't collect any.

2. Data We Do Not Collect

Whitney Challenge does not collect, store, transmit, or share any personal data. Specifically, the app does not collect:

- Your name, email address, or any contact information
- Location data
- Device identifiers or advertising IDs
- Usage statistics or analytics
- Crash reports sent to third parties
- Any data from the microphone, camera, or other sensors

3. How the App Works

All timing calculations in Whitney Challenge are performed locally on your device. Your tap times and results are never sent anywhere — they exist only in the app's memory during your session and are discarded when you close the app.

4. Third-Party Services

Whitney Challenge does not integrate with any third-party analytics, advertising, or crash-reporting services. The app does not include SDKs from Facebook, Google, or any similar provider.

The app contains links to Spotify, Apple Music, and YouTube. If you tap one of these links, you will leave the app and be subject to the privacy policy of that service. Whitney Challenge has no control over and takes no responsibility for their data practices.

5. Children's Privacy

Whitney Challenge does not knowingly collect any information from anyone, including children under the age of 13. Since no data is collected at all, the app is safe for users of all ages in this regard.

6. Changes to This Policy

If the app is updated in a way that changes how data is handled, this Privacy Policy will be updated and a new version will be published on the support page. The date at the top of this document reflects the most recent revision.

7. Contact

If you have any questions about this Privacy Policy, you can reach us at:

1201824@protonmail.com

Whitney Challenge is designed to respect your privacy completely. No accounts, no tracking, no ads — ever.
