

This list is a compilation of new content posts and does not contain repeated content, including pony history of the day and livestream arts that appear in the Drawfriend (counted as a single art). Canon, OC, and saucy sub-categories are further description of Drawfriend related images and do not affect the Drawfriend total. Official comics category contains only new and full releases of Hasbro MLP comics. Spotlight music category includes single track posts "spotlighting" tracks even when not labeled as spotlight music. Videos labeled "Top Ten" include rating lists of other numbers (Top Nine, etc.). Nightly Roundup content is also included in their corresponding categories. (Because I was using my time zone instead of the blog's, I derped what days the Nightly Roundup content was on on days before the 15th.)

DISCLAIMER: This was a rough first attempt. I can't guarantee it's 100% accurate, but it should be accurate enough to represent the kind of posts we got in January. If I do this again in February, it will be much more organized.
