

Privacy Policy

****Dot****

Last updated: July 2026

> This is the plain-language starter copy shown inside the app (Settings / Paywall → Privacy Policy). Have a lawyer review it before App Store submission and update the contact email / company name to your real details.

Overview

Your privacy matters. This policy explains what Dot collects, why, and your choices. We aim to collect as little as possible.

Information We Collect

Dot does not require an account. Your habits and completion history are stored locally on your device using standard iOS storage. We do not upload them to our servers.

Advertising

Free users see ads served by Google AdMob. AdMob may collect device identifiers and usage data to deliver and measure ads, subject to Google's privacy policy. Pro users see no ads.

Notifications

If you enable the daily reminder, Dot schedules a local notification on your device. This happens entirely on-device; no reminder data leaves your phone.

Purchases

Subscriptions are processed by Apple. We never see or store your payment details. Apple shares only the anonymous transaction status needed to unlock Pro features.

Your Choices

You can limit ad tracking in iOS Settings → Privacy & Security → Tracking. You can delete all locally stored data by deleting the App. You can manage your subscription in App Store settings.

Children

Dot is not directed at children under 13 and we do not knowingly collect data from them.
