

## Build a Course Using SUNY Niagara Brightspace Templates

We have built Brightspace templates for SUNY Niagara based on the templates provided by the SUNY Brightspace Course Template Team. In addition to a unified course layout and branding, we modified our template to include campus resources and help available to our students.

### How to Download the Templates

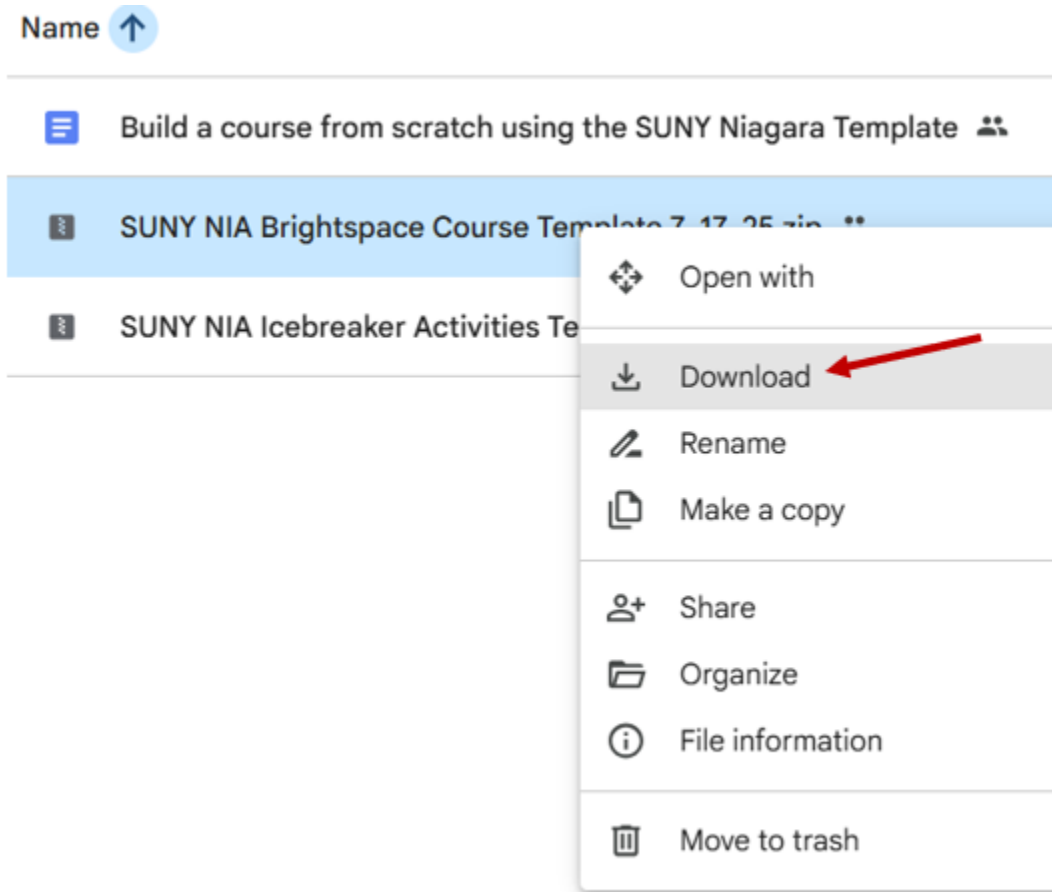

1. [Go to the Course Templates Folder](#)

### The Templates Include:

- **SUNY NIA Brightspace Course Template**
  - Welcome Start Here, Course Information, Module 1 Icebreaker Activities, and Module 2 (blank). **Note: This template includes the information in the Icebreaker Activities template below.**
- **SUNY NIA Icebreaker Activities Template**
  - Provides icebreaker activities; module overview, meet your classmates discussion, optional personal student survey, Academic Integrity at SUNY Niagara, how to set up notifications, and how to set up the Pulse App

2. **Right-click** on the template filename (e.g., ***SUNY NIA Brightspace Course Template***) and select **Download**
- Do NOT click on the filename to view.

- This will place the file in your downloads folder on your computer.
3. Follow the [instructions](#) on **How to Import a zipped course into a D2L Brightspace course**.
