SUMMARY

Junior developer with practical experience in building full-stack web applications, integrating backend services, and creating interactive 3D web content. Passionate about developing useful tools and elegant user interfaces.

PROFESSIONAL EXPERIENCE

Court Bailiff at the District Court in Bielsko-Biała
IT Specialist

Bielsko-Biała, PL
September 2023- Today

- **Developed and currently maintain the official website of the bailiff office**
- **Provide day-to-day technical support, including workstation setup and troubleshooting**
- **Manage IT infrastructure upgrades, including replacing outdated equipment**
- **Ensure network security using WatchGuard firewall solutions**

PERSONAL PROJECTS

- **Bailiff Website** komornikddbialsko.pl
An official, non-commercial website built with Next.js, featuring a custom backend for creating, deleting, editing, and reading data, connected to a PostgreSQL database via Prisma, with Firebase authentication. Developed using TypeScript, which i self host on coolify.
- **Personal Portfolio** wiktordawid.vercel.app
Built with Next.js, Three.js, and TypeScript. I created a 3D model of my own room using Blender, showcasing my skills in web development and 3D modeling.
- **Carpentry Website** stolarstwokomendera.pl
A simple, elegant lightweight website with both dark and light themes, built using Astro and React, with TypeScript for improved performance and user experience.
- **Photography Website** patrycjadfotografia.pl
Developed using Vite and JavaScript, created in collaboration with the client from design to implementation, focusing on clean and functional design for an animal photographer.
- **CatchZone** catch-zone.vercel.app
Modern Pokédex web app that fetches and displays detailed data for over 1300 Pokémon from the PokéAPI. It supports real-time search, type-based filtering, and dynamic pagination with smooth UX. The project features optimized API handling, custom UI design, and clean component-based architecture.
