#2 EMAIL SEQUENCE MISSION

Subject: More Opportunities Abound!

As you've shown interest in programs that may benefit you, we are committed to keeping you informed about the latest financial opportunities.

According to Bayshore Health, "The home setting is the "least restrictive environment", allowing older adults to stay engaged with their normal daily activities, including regular interaction and companionship with family and community. It allows for more choices and encourages active participation in their own lives."

With this understanding, our government has introduced the Aged Residential Rehabilitation (ARR) program for seniors who own their own home, or who live with someone who owns their own home. If you qualify, the program will help you retrofit your home with safety equipment necessary to facilitate you staying in your home for as long as possible.

Some sample items covered under this program are:

- Stair lift - powered chair lift for stairs
- Grab bars - at the toilet, in the shower, on the hall wall, etc.
- Toilet riser - to raise the toilet to a more comfortable height
- Bed rail - for ease of getting into and out of bed
- Wheelchair ramp - interior threshold or exterior ramp

Sincerely,
Agora Financial
