## **Revolutionize Your Charging Experience with inCharge® X**

Greetings, Tech Enthusiasts!

We are excited to introduce the inCharge® X, the game-changer in charging technology that's set to redefine how you power up your devices.

### **Ultra-Fast Charging, Anywhere, Anytime**

inCharge® X offers lightning-fast USB-C to USB-C charging, delivering a remarkable 100W of power. Whether you're charging your smartphone, tablet, or even a laptop, our proprietary chip ensures you stay connected, no matter where life takes you. Say goodbye to low battery anxiety!

### **Phone to Phone Charging**

But here's where inCharge® X truly shines: it turns your phone or tablet into a power source itself. When standard charging ports are nowhere to be found, use your USB-C phone as input, and voilà! You become the savior in power emergencies.

### **Data Transfer at the Speed of Light**

inCharge® X is not just about charging; it's also your go-to solution for data transfer. With speeds reaching a blazing 480Mbit, you can quickly and effortlessly share your data between devices.

Ready to experience the future of charging and data transfer?
