18 minute update about the home of hope you're gonna love it it's it's you're going to love the progress we've made and um also it'll be on fhtv.tv after the show tonight so you can go watch it there if you're watching me and you are not subscribed to fhtv.tv you're not even in the loop no no you don't get you don't get notifications so go subscribe free of charge to fhtv.tv all right that's all the announcements so it is time for the good stuff all right let's get right to it first of all we have a major confession tonight from The Washington Post I've been waiting on this confession for two

19 year over two years now remember the Washington Post were the ones that blew up the Russian collusion hoax they were like some of the main Publishers of that hoax that was propagated by Barack Obama he unleashed the Deep State on Donald Trump through things like the Washington Post the New York Times but they were the big big ones that were pushing russiagate well I'd like for you to look at your screen because the little gumbo part of truth that's been cooking and look what just popped out of the lid on the top of that Gumbo Pot well I do declare it's the Washington Post and what is the

20 headline Russian trolls on Twitter had little influence on the 2016 voters I told you so oh I told you so yep there it is they admit it publicly to the whole world they admit it that they lied it was all a lie it was all a lie there you go it's right there in your face look at it they admit that there was no massive influencing of the 2016 election that is by their own admission here's what they said in their article only one percent of Twitter users accounted for 70 percent of the exposure to accounts that Twitter identified as Russian troll accounts did you hear me one percent these

21 so-called Russian uh troll accounts reached one percent of Twitter users and you remember they that they are What affected the election Hillary Clinton an election denier yes Hillary Clinton

is an election denier Stacy Abrams Abrams is election deniers yeah they sure are they denied that John Donald John Trump won the election because Russia influenced it through Twitter well the Washington Post says that was a lie and it said here's what else their report says that highly partisan Republicans that would be me and you were exposed to nine times more post than non-republicans in other words the

22 Russian accounts wasn't even going after the Democrats they were going after me and you it was the total opposite of what they reported in the beginning and their final conclusion I'll quote there was no measurable impact on political attitudes polarization and vote preferences and behavior from the Russian accounts and post the idea that Russia rigged America's 2016 election has been officially debunked we were right they were wrong and it's taken a long time for the mainstream media to acknowledge this there is an agenda behind this smear campaign ladies and gentlemen there is an agenda and

23 you're going to see some of that agenda tonight let's see if we can't find some of that agenda right now I want to show you what I'm talking about well you know as well as I do that there were classified documents that have just been found they were discovered a week prior to the midterm election I want you to let that settle way down in your mind one week prior to the midterm elections they found that Joe Biden had removed classified documents as vice president not as president the vice president cannot declassify only the president he had taken classified documents to a private office in the

24 pin Biden Center now this is why this is very important hugely important the notification from Biden lawyers to the Department of Justice on November the 2nd this was known about before the midterms it should have been reported on but it wasn't ladies and gentlemen we have a huge problem here we have gumbo that is cooking and the lid is screaming one week before the midterms the media knew about classified documents that was found in Joe Biden's office it was kept Under Wraps until yesterday when CBS first broke this story now remember Joe Biden as vice president he has no declassification

25 Authority Donald Trump did none whatsoever now CBS News noted that the sources did not reveal what these documents contained nor their level of classification but shortly thereafter guess what CNN reported yes the Clinton News Network guess what they reported that Not only was this classified material it was top secret with the word sensitive written on there that's known as SCI which is used for highly sensitive information obtained from intelligent sources now where were these documents were they under a lock like they were at Mar-A-Lago were they safely sealed like they were at Mar-A-Lago

26 with security all around the compound is that where these documents were found oh no no no no they were found at a private office a think tank and this is what this is what Joe Biden has to say about people that lose classified documents you saw the photograph of the top secret documents laid out on the floor at Mar-A-Lago what did you think to yourself looking at that image how that could possibly happen how one anyone could be that irresponsible and I thought what data was in there that may compromise sources and methods by that I mean names of people who helped or et cetera and it just

27 uh totally irresponsible totally totally irresponsible how could that happen well let me ask you how this could happen I could almost I could understand securely the FBI has already been to Mar-A-Lago made an agreement with Donald Trump to store those documents behind closed doors but not so with Joe Biden guess where they found them they found them in a very busy office in Washington D.C very busy office it was a building 10 stories high in D.C it included numerate numerous public areas it had a reception area where people sit around and talk and it was on a roof that hosted wedding parties

28 anybody could come in there wedding parties private events yeah and these top Secret

classified documents is sitting in a closet with all of these uh whoever's just walking by surely nobody would ever think to open a closet and look wow there's nuclear secrets we can sell to China you know but according to Biden that was Holly highly irresponsible now I want to know when Biden's home is going to be raided I I want to I want to know the date the time I want to know when this is going to go down because ladies and gentlemen we now have a major problem we have a conflict of interest we have

29 blatant bias in the criminal justice system blatant and do you remember when the news media went crazy over that Department of Justice is going to do something like this symbolically or simply to send a message um that might be understandable but this is literally unprecedented it hasn't happened we have never searched the home of a former president and we only did it because we had probable cause to believe that a crime had been committed it just sends the message that there is no person in this country who's Above the Law and I think the message that it sends uh is really important that even

30 the former president of the United States can be held accountable and should be and will be of Law and what it signifies to me the news yesterday is the justice department is returning to its historical position as a law enforcement agency above politics trying to do the right thing and enforce the laws when they're violated how big of a moment is this is this a moment we are all going to remember yes we're all going to remember being together on this night because this is a night where you are going to remember where you were tonight's news that the FBI AI has raided the home of the immediate

31 past president of the United States it feels both astonishing and sort of inevitable in equal measure the documents also included information about we don't know which an ally or an adversary's nuclear program I cannot tell you how terrifying that is my top level expert legal analysis of the affidavit is why ain't this dude in jail like what does this man have to do to go to jail marlago is nothing more than just a front for a criminal Enterprise designed to undermine democracy worldwide hypocrisy worst that worse than hypocrisy trees and high crimes misdemeanors to go after our president

32 while the fake one sits up there and and literally violates his own conscience of what he said is totally unacceptable totally irresponsible then go ahead go after him as well if not we're watching FBI we see you we understand we're not dumb we wasn't born yesterday it's pretty obvious how many of you know what a proxy is let me see your hands anybody know what a proxy is if not allow me to educate you real quickly a proxy is literally a duplication of yourself a proxy in the days of kings and queens if the King was out fighting a war and he needed to marry a queen to unite the kingdom and he

33 couldn't make it to the wedding there would be a proxy that would stand in for or on behalf of or instead of or in the place of the king and in that moment the proxy was the king because the power of proxy the power of Regency or power of attorney literally transfers my person to your person if I have the power of attorney I can literally take and sign your name just as if it were you signing it now why did I give you that quick lesson on a proxy because I'm about to make a statement that if you don't understand proxy you won't understand my statement Donald Trump is now the Speaker of the

34 House of Representatives I'll say it again and I hope they'll clip this and take me out of context Donald Trump is now the Speaker of the House of Representatives we always believed he would be and he is by what by proxy ladies and gentlemen Kevin McCarthy looks like Kevin McCarthy but he's not he's Donald Trump because whoever controls the man is who owns the man and I'm happy to announce to you tonight that Kevin McCarthy has been neutered he has been uh totally uh a eunuch he has become a eunuch to the lady of liberty the nation of America the Republican Party he is a eunuch he is there to

35 serve with absolutely no ability to break his promise Donald Trump is now the speaker of the house do you know why because God didn't answer your prayer because God ignored your prayer thank God for unanswered prayers yes you were praying for a red wave I was we all were we wanted a red wave and do you know what that Red Wave would have done it would have washed Maga right out of the House of Representatives yeah and it would have given so much power to the Rhinos that they could laugh at Marjorie green they could laugh at Lauren bobert they could laugh at Matt Gates and raw chip they could

36 just but you see because God knows better than you yes I'm talking to you because he was looking out for this nation he didn't give us our Red Wave but he gave us something better he gave us Red Power that's what he did and now because of that power ladies and gentlemen McCarthy had to acquiesce to Donald John Trump through Donald Trump's proxies through Lauren bobert and Matt Gates and all the others and now he's in control of the whole Congress and soon you will see him in control of the White House the 20 Representatives that stood against Kevin McCarthy fought for significant concessions

37 significant they literally changed the Congress back to the way the founders envisioned it before Nancy Pelosi and John Boehner's Iron Fist rule they reverted it back to become a representative government before they voted him in he agreed to meet these demands and I'm fixing to tell you what a few of those demands were McCarthy publicly after the vote went before a camera and who who who let me say like an owl who who who oh who did he give thanks to who did he look at the camera and acknowledge that it was that man that gave him the Congress who said I cannot somebody tell me who if you

38 want me to stop saying who did somebody tell me who I'm gonna look at the chats I'm not going to stop saying who who Cheryl McCann saved y'all Cheryl McCann saved y'all Donald Trump or surla Pam Tedder Janice Hardy y'all really wanted me to stop who and how I love it he literally looked at the camera and thanked Jetty box thank you I try to be oh I said I would stop didn't I okay he thanked old Donny boy oh yeah oh Donny boy [Laughter] oh I love it I love it do you know why he thanked him because he is him he is operating in the proxy role of Donald John Trump Donald Trump is the speaker of

39 the house but you got to understand proxy to understand what I just said amen congratulations President Trump on being the Speaker of the House oh Donny boy I love it how how is he already the Speaker of the House what you know what kills me they they count him out and he's ruling the house thank you brother Robert MacLeod Kimberly Chris I love you darling Janice Hardy you've been with me a long time I appreciate your loyalty and your faithfulness thank you for supporting me helping me stay on the air yeah well with that said the house rules package so how do we know that old Kevin is not

40 gonna try to get rid of the spirit of trump get delivered from trumpism you see Trump's in the man now rule in the house who's to say that not that Kevin McCarthy may not try to go get Deliverance at one of those tent services and get Mass deliverance and try to get Trump out of you [Laughter] I mean what if he tries to get some holy oil throat on him to get that Trump Spirit out of him well unfortunately he's going to have to get some real good anointing Earl he gonna have to get that anarchment Earl it's gonna have to be that cow from Jerusalem for it to work from the Jordan River it's gonna

41 have to be mixed with holy water from the Jordan River and they're gonna have to get the Earl from consecrated olives from The Garden of Gethsemane for this to work because of something called the house rules package it is now law it is written in stone it's written in stone and I'm going to tell you what some of the things not all of them I don't have time just a few of the little things that's written in stone yep let him try to get delivered from that Trump Spirit now and the only thing is going to get delivered from is his position he is Donald Trump now don't

you get it Donald Trump is

42 the Speaker of the House because Kevin will say what his father tells him to say hallelujah all right okay I'll quit I'm done I'm done I'm done I'm done all right okay I'm done listen so how do we know he cannot get delivered hey Mary and Peter and Lydia and Ellie and Lori Lori told me to stop Lori I'm trying to stop darling Dale Bentley said one more time okay that was it all right let's go let me tell you why he cannot get delivered from the Trump spirit he is Donald Trump because of the house rules package I'm going to read you a few things that was in that rules package that is now the law

43 of the house are you ready number one it only takes one Congressman to remove Kevin McCarthy are to call for his removal it's called a motion to vacate a motion to vacate okay used to it before this you know how many it took for a motion to vacate the majority of the party that's a lot of people impossible pretty much giving the speaker the ability to be his own man but not anymore no you Donald Trump you got trumped you got trumpetized you got filled with the truck yes you did and you can't get out of it because if you do then Trump's other proxies is gonna call for your removal and guess

44 what's going to happen then we got to vote all over again and the 20 that fought you last time gonna fight you again you'll never get the vote somebody's gonna get you a job you better stay full of the Trump Spirit you need to get full with it every day Pauline Daniel said you act like a child grow up and act like a teacher I'll grow up when I feel like it I tried to grow up that was so boring and it was depressing to be honest with you and I am teaching it's teaching through laughter it's teaching through joviality do I need to teach you what joviality means all right so I am teaching and

45 it's my program it's my show you don't have to be here I love to laugh okay thank you I'm about done with everybody's opinions so there we go praise God thank you Cheyenne heyville thank you Marcella Pounders thank you I'm never going to grow up I don't want to grow up Hallelujah somebody said don't read the comments that's the best advice I've heard all day long okay now the next rule that was in there rule number two by the way I don't mean to be ugly but I'm probably teaching you more in this one hour than you've heard all week long because I have an ability to teach and you don't even

46 realize I'm teaching okay number two it Demands a committee to be convened to look into the weaponization of the FBI and other government organizations against the American people did you know that Kevin McCarthy had to agree to immediately start a committee that would begin investigating the FBI's weaponization against me and you the American people yeah you know when they came to my home yeah when they was looking through my wife's bathroom window when I pulled up when I went live to show you how the FBI was peeking Toms through my house I've been standing for this Republic and Donald Trump

47 because I believe in it those people came to my home my neighbor saw them they know I'm a pastor what's the FBI doing at your house Pastor Vaughn that's the weaponization of their intimidation [Music] that was rule number two that you can thank the Maga 24.

48 stay awake owita Bradley don't you go to sleep rule number three term limits have to immediately be put up for a vote no one has been able to accomplish that they did that was the third rule Kevin McCarthy's agreed to it term limits term limits is rule number three that they are that he agreed to number four are you ready immediately to present a bill to Congress it can no longer be an Omnibus Bill it must be a single subject with all of the attended earmarks with a 72-hour minimum period to read them ladies and gentlemen that is huge I don't know if you heard me I'm going to repeat it Matt Gates and the Maga 20.

49 saved this nation through what you were calling chaos yes they did rule number four says it instead of giving me a 4 000 page Omnibus Bill to read within 24 hours before the Christmas

break no no no no no from now on one subject at a time one 72 hours minimum to read it how many like that rule foreign like that rule do you think it's time for that no more pork that's a good rule no more 4 000 page documents Sunny Schwartz to read in a day that's the Maga 20.

50 that's what they did for you you know why they did it they're on the phone with Pimp Daddy John yeah Dottie boy they're on the phone with America's president he's the speaker of the house he's telling them what to fight for and then I'll publicly now y'all get behind McCarthy that way McCarthy will get behind me that was a good rule rule number four no more sneaky stuff next rule are you ready see you're learning more here than you'll learn all week long while I'm laughing number five that the Texas border plan will be put before Congress to complete the physical border wall did you know that

51 was part of the agreement to immediately start rebuilding that wall who do you think put that in there hello anybody home who do you think who who do you think made sure that got in there Build That Wall foreign who do you think did that his name's Don his name's Mr President that was rule number five I told you Donald Trump is the speaker of the house I told you that just listen to these rules and you'll see Trump all over him I'll do that just to aggravate people okay listen rule number six are you ready you're gonna love this one mandates are to be ended Across the Nation and all funding

52 will stop immediately for covid mandates including so-called emergency funding Kevin McCarthy agreed to bring it before the house where we have the majority rule number seven I'm gonna stop at Seven there's a lot more budget bills would stop the endless increase in the debt ceiling and hold the Senate accountable for our national debt all sounds good to me thank you maga20 thank you Maga 20.

53 ladies and gentlemen we called this chaos as what we called it when we saw that week of infighting back and forth but there is such a thing as Controlled Chaos you go you're riding down the interstate and you see what you think is a forest fire burning everywhere but it's not it's a controlled fire designed to burn out the junk sometimes what you call drama is what God calls destroying the enemy what you call chaos is Controlled Chaos it has a purpose that is what happened in the House of Representatives with the Maga 20 it was Controlled Chaos and it was controlled by the Speaker of the House

54 Donald John Trump ladies and gentlemen three will show our resolve changed how Congress operates that we stood up to the swamp and said enough is enough that we seize the opportunity to return the power to the people we are changing the way business is done in DC because we stood strong and held our ground we will now have the opportunity to vote on term limits because we stood strong we will vote on border security because we stood strong we won't be forced to vote on Thousand page bills and the dead of night without having time to read them instead we'll tackle Appropriations through our

55 committees we will be able to offer amendments there will be transparency so everyone has an opportunity to have their voices heard earmarks will be voted on their Merit not passed out as candy to gain votes legislation will be on single subjects not filled with unrelated garbage our success this week is truly a win for everyone who believes in representative government I agree thank you Lauren thank you for willing to be laughed at for America can I thank you Lauren you and Matt and Roy and everyone that said you know what we're going to stand for America we're going to stand for a

56 representative government we're going to bring Mega back with 20 of us that's right they were Gideon's Army there were only 20 of them but that's all God needed wasn't it Hallelujah that's all God needed wasn't it 1 20 just a handful to say yes Lord here am I I will stand for the virtues of our nation and our constitution we owe them a debt of gratitude by the way a debt of gratitude congratulations to Ohio the state of Ohio for a major victory for election Integrity with

their new voter ID law it's amazing now you've got to every human being that votes can you're not going to believe that

57 what they've come up with it is astronomically insane you have to show a current photo ID to vote wow how could they be like that my god there was a time when Common Sense was very common but not anymore congratulations to the state of Ohio in a few seconds I'm running out of time I'm going to talk to you from my heart like I always do at the end of my classes but before I do I want to address something that was uh many people have emailed me hundreds and hundreds of you have emailed me about the Brunson case all month long you've been emailing me about the Brunson case as if I didn't know

58 about it and that's okay but many were angry with me that not one time in my classes have I ever mentioned it there's a reason something inside of me told me how it was going to turn out and I didn't want to get your hopes up I didn't want to give you another false flag that so many of you have been given sadly the Supreme Court rejected the Brunson case and I but I believed they would from the beginning so there's a reason I never reported on what everybody else was talking about all the podcasters was talking about the Brunson case I chose not to because I take my platform very seriously you

59 people choose to watch me instead of major news you choose to give me your time some of you are falling asleep right now it's your bedtime but you wait for Toto and I will never ever ever entertain you with something I don't believe in something that I don't I don't ever want to mislead you in any way so that's why uh uh I I knew that it would not go anywhere and so I'm very sad to report that it didn't but that's sort of what I felt from the beginning all right I want to close tonight with a heart-to-heart talk about our president Donald Trump and you I want to talk about you and president

60 Trump so the enemy of Donald Trump which is pretty much everybody the enemy is out to destroy Donald Trump you've watched it we have a man that is nothing more than a man he is not a god he is simply a man that God raised up now for those of you watching me right now that don't believe God raised him up then you don't believe the Bible because it says it is Yahweh that raises up Kings and sets them Down leaders it was God that raised up Saul and David and all the leaders of Nations now I believe that that's my personal belief and therefore I believe that God raised up Barack Obama to do

61 exactly what Barack did the same reason he raised up Pharaoh the Bible said Pharaoh was the minister of God and he was purely evil I won't get into the Theology of that tonight but you can study all of that at fhtv.tv where I have over a thousand sermons on the subjects like the sovereignty of God watch it however God chose to raise up Donald Trump a man that was loved by the world until he took a stand against wochism and then he was hated and still is by the vast multitude of the swamp they despised the man now let me explain the way this works and I really want you to understand it the

62 Bible says in the Book of Revelation that Satan's desire is to wear down the Saints he knows he cannot defeat you because the weapons of your Warfare are Mighty through God he knows that you Patriots he cannot defeat you or Donald Trump but that's okay he doesn't have to as a matter of fact it's not his intention to destroy Donald Trump listen to me carefully now he doesn't need to destroy Donald Trump because at the end of the day after the taxes are released and there's no there there after the investigation in Georgia has ended and the and the uh they can't do anything after the doj is done

63 and they can't do nothing after two impeachments and nothing after the after after after after the Mueller report after everything and nothing sticks just a bunch of accusations a bunch of innuendos see Satan knows he's not going to destroy Donald Trump he knows that but he doesn't need to no here's all he needs to do to win this battle against America he just needs you

you to get tired of the drama anytime Yahweh raises up a man to stir up hell then why would you be surprised when hell gets stirred up guess what that creates drama any time there is an anointed man of God it's going to create

64 something called haters they're going to come by the masses not against the man because they like the man before God anointed him for his office they loved him but when the anointing Came Upon him to rise up for America now those that loved him hate him without a cause they can't even tell you why they hate him they just know they hate him and then all of a sudden accusation after accusation and they they create news agencies to destroy the man 24 7.

65 you're hearing that he raped a woman you're hearing this you're hearing that and this is the goal of the enemy it's not to get Donald Trump it's to get you to wear you out to make you say maybe we need another leader one that don't have so much drama yeah you mean like George Bush Jr those that are not doing anything to confront lies and reveal the truth they stir up nothing so therefore there's no drama but when God raises a hell-raising man up it's going to raise up hell and that's called Drama every day there's going to be some new lie against Donald Trump and many of you watching me now

66 you're guilty I love you I love you but you're guilty of getting tired of all the drama you just want the drama give me to Sanchez only the anointing brings the attack in this man Donald Trump there's a new lie on him every day and all they need to do is to make you want to go back to when things were peaceful Well when things were peaceful you were being lied to and you didn't care when things were peaceful you was involved not even involved in politics and you didn't even care when things were peaceful whenever things are peaceful it's because somebody is not stirring up the gates of hell

67 they want you to get tired that's all they want they want you to say I cannot watch any more news about Trump they want to send it in your head that he's over with they want to convince you that he's flawed they keep telling you on the news you need a better candidate you need another candidate one that's not so flawed doesn't have so much baggage but you see you can have all the baggage in the world but if you've got one drop of anointing nobody can stop you nobody nobody can stop you when the favor of God is upon your life when the blessings of God is upon your life the very fact that you're

68 blessed will be an indictment against those that are not and they will despise the favor on your life and then create drama that you're forced to respond to and then say oh I don't want no drama that's because you're a coward if you're a coward go home we don't need you Warriors recognize the difference and drama and battle ladies and gentlemen they're stirring up so much drama around the anointed men of God stirring it up throwing things saying now don't respond because that's drama every time they throw something and president Trump responds to it you know what people say I wished he

69 wouldn't do that but if he doesn't do it well I wonder where he's at why isn't he saying anything here's the deal they can never get Trump until they can get you in my own Ministry hey they can never get those that love me and those that believe in me you see that's why Jesus yahshua had 12 disciples he had the first Clique in the ministry he loved everybody to be the only trusted twelve and as long as they couldn't get those 12 they couldn't get to him you listen to me you tonight are the twelve you are the 12 disciples that God is called to stand behind Donald Trump and if Satan can get you

70 tired Donald Trump loses because he cannot do this without you and they know that so that's why every day drama trauma and then here's what Cal would say I'm tired of all the drama it's not drama it's spiritual warfare learn the difference carnal-minded people think it's drama when the enemy is attacking and you are Defending Your territory like Donald Trump is that's not drama that is spiritual warfare for the nation of America it's not pretty it's not fun it's not clean but

somebody's got to do it call me somebody foreign Somebody's gotta do it roar 24.

71 I have made up my mind I'm more determined now than I've ever been to stand behind this President I'm more determined now to stand behind the anointing I don't agree with everything the man does but I do agree with everything that God does and if God's okay with the man I'm ready to join hands with every one of you and sing like the old black churches used to sing I'm not tired yet may God bless you and the United States of America God Bless America
