

Justice

Justice City Hall:

A Justice City Hall with a dedicated Tribunal and Board can be created within the police station or the Council itself, formed by representatives of the Police and the Court so that Civil Complaints (not of a serious nature) that have arisen within the Locality are resolved at that very moment. We insist that this Unit can be easily created inside the Local Council building, thus eliminating the chance of delays for approval by the Police Station, Commissioner or Minister.

No resident will face delays/ bureaucracies /exorbitant fees in these Courts. Also, it will be beneficial for the Courts so they can avoid more overcrowding of people/cases.

In this same building of Justice City Hall, penalties and fines can be contested, among other proposals.

The Community Police:

We believe that the Police deserve much better Offices than where they are currently situated.

We believe that they must have two reserved parking spaces in front of the new Police Station in a central location where they can be efficient. We also believe that the Police should be free from any kind of political interference.

We also believe that the Valletta Police and each of its branches will be dedicated exclusively to our Locality and not divided between two Localities as they presently are.
