

## Connecting to NTHS-STAFF (Windows 10)

Connecting to our WiFi with a District provided Windows 10 device is easy!

First, make sure you are logged in to the laptop (if you have never logged in to your District provided laptop, see additional instructions at the bottom).

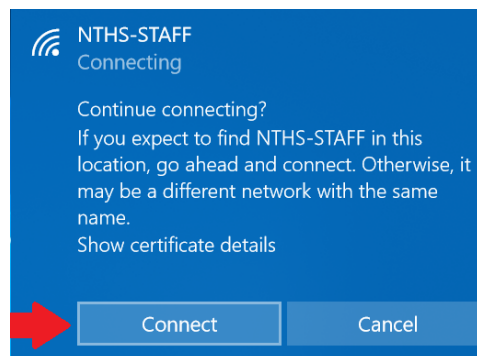

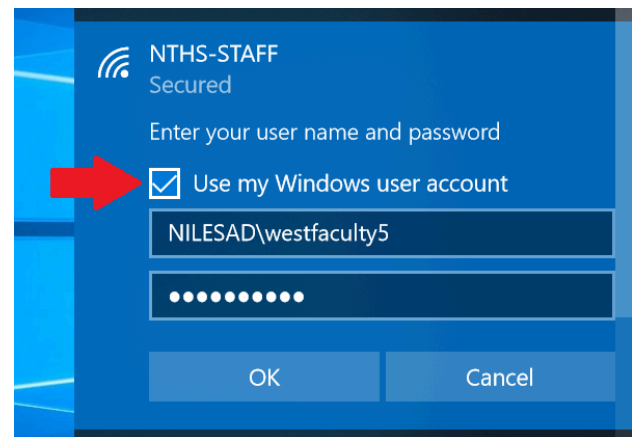

Click on the WiFi icon  on the lower right corner of your desktop.

A list of available WiFi networks will be displayed. Select NTHS-STAFF

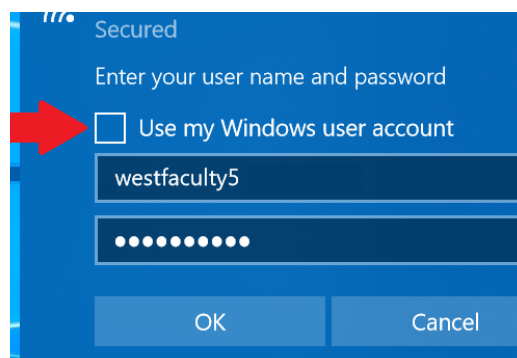

Select "Use my Windows User account" to automatically use your current Windows credentials.

Note: If this is your personal Windows 10 Device, you cannot use this option. Please see additional instructions at the bottom.

Click "Connect" on the next window and you are done!

IF YOU ARE USING YOUR PERSONAL WINDOWS 10 DEVICE, OR A DISTRICT DEVICE, BUT LOGGING IN FOR THE FIRST TIME:

The steps are the same as above, except you will need to connect to "NTHS-STAFF" by entering your District username and password before logging in to the machine.

- Do not check the "Use my Windows user account"
- Enter your regular username that you normally use.
- Use the same password that your normally use with your username.
