

(Hi! I'm phos. This document is currently going to take a long time to get started, but i'm currently going through my own tumblr and tumblr likes to post important posts like **the original goncharov post** and things like that **movie poster** everyone puts everywhere. I am also a busy bee, so i won't be able to be doing everything here, forever. That's why collaboration is an important part of it! Thanks, love you all, see you in the future. <3)

THIS LIST MAY BE MOVED TO ANOTHER LINK FOR BETTER ARCHIVAL PURPOSES, BUT FOR NOW STAYS AS A GOOGLE DOC. ENJOY, NERDS.

("how do i add a link?" you can do it yourself, don't worry! Just try to follow the formatting laid out throughout the document, and paste them in yourself. <3)

(this doc used a problem where because google (for whatever reason) set the default share link interaction level to "viewing" instead of editing or even commenting, people couldn't put in their own links. I am so so sorry about this mistake, i've tried to fix it, please tell me if it reoccurs again. <3 -phos)
