

K-W-L Chart about Space

Fill in the chart with what you know about space and what you would like to learn.

What I know about space...	What I'm wondering about space...
<p>There are lots of planets. Space is infinite. Stars are flaming balls of gas. The Sun is hot. You can fit 1,000,000 Earths inside the Sun. There are still parts of space that are unexplored.</p>	<p>Have any planets been sucked into a black hole? Do stars have names? Are their particles floating around Venus?</p>

What we've Learned
