

Welcome!

Add yourself wherever you'd like! Please don't mess with others' tags. Feel free to add a new category if you're feeling extra specific. If you have specific triggers you'd like *not* to be tagged in, you can add them beside your name or ask/message them to me for privacy. Anything added other than your url will go into my personal notes and be erased from here as soon as I see them anyway.

[Thank you for your interest in my writing!](#)
