

**WARNING: THIS BLOG CONTAINS THEMES/MENTIONS OF CANNIBALISM, GORE, AND CULTISH BEHAVIOUR/TENDENCIES.**

- I am very forgetful or sometimes can get really bad writer's block so if we have a thread going and I haven't replied in a while, you can send me a message to remind me.
- This blog isn't inherently NSFW but I will sometimes rp mature threads, but they will be tagged.
- I LOVE SHIPPING! Please, let me know if you want to ship our characters, 9/10 times I will be down.
- Mun is 25, muse is also 25, and I won't RP mature themes with those under 18, even if you're 17 about to be 18. Due to certain themes or things that might come up in rps. But I will do more wholesome and slight horror themed rps with younger RPer's.
- Please don't try to spam the asbox with repeated questions. (Though do feel free to send in as many ask memes as you want)
- NSFW asks of a more sexual nature are allowed to some degree, but I will only answer them for Sinday (Sunday) asks.
- Don't try coming here to bad mouth another blog or to bring any hate towards this blog here as it will be ignored.
- Don't feel like you're bothering by sending in asks. I enjoy answering them in my spare time.

## Rp Rules

- I will allow smut rps to a certain degree if I'm feeling up for it, if this is something you'd wanna do please ask me ahead of time. Due to the nature of this blog dark themes may be present. so be prepared for that.
- You don't have to reply with multiple paragraphs as I myself sometimes won't be in the mood for long replies, but please don't give me one or two words replies (unless its a crack rp)
- Feel free to do whatever you want to my muse, don't hold your muse back. If they wanna start a fight with mine, threaten them, hurt them in any way let them. Let your muse do what they'd normally do in that situation, don't hold back. (though killing of my muse is something we'd have to discuss beforehand)
