

Trial Description Document

Trial Leader: Yan Xu

Trial Mentor: Gregoire Le Gal

Mentor's Email: glegal@ohri.ca

Content Area:

My research program aims to optimize the risks and benefits of anticoagulants in the prevention of venous thromboembolism (VTE), with a specific focus on ethnoracial health equity.

Trainee Goal:

My goals for participating in the program are i) to design a prospective registry-based trial on inpatient VTE prophylaxis, and ii) to learn about practical aspects of planning a registry-based, stepped wedge randomized controlled trial (including outcome definitions and identifying relevant databases) to launch my academic career focused on VTE prevention in diverse patient populations.
