

Hello everyone! My name is Mrs. Gresham, and I am so excited to meet each of you. I will be teaching math for the T-Team. My favorite part of teaching is when my students have a “lightbulb moment” when things seem to click. Through problem solving and exploring, this moment often happens in math class. I know math isn’t always easy for all of you, but I think each of you are up for the challenge.

I graduated from Eastern Illinois University with a degree in Elementary Education with endorsements in mathematics, English-language arts, and social science, in which I have taught all three at the middle school level. I also have my masters in Curriculum and Instruction with a reading teacher endorsement.

This will be my fourteenth year in a middle school classroom, teaching 6th-8th grade throughout my career.

In November I will have been married for 11 years to my high school sweetheart. We have three beautiful girls and one rambunctious boy. Berlyn is a junior at the University of Illinois, Anna is in 4th grade, Everett is in kindergarten this year, and Ella is starting Pre-K. Our Saint Bernard, Axel, and our cat, BoBo, both joined our family 8 years ago. We also have a fish, hamster, and lizard. Our household is filled with laughter, love, and chaos each day.

I was born and raised in Lexington, IL, and I continue to live there with my husband and kids. In my free time, I love to do yoga, read, and spend quality time with my family and friends. I also love to travel! My most exciting trips have been to Italy and Ireland. I also love the tradition of traveling to Gulf Shores, Alabama over Spring Break each year with my family.

As always, our school year will be filled with unknowns, but together we will persevere through our struggles, challenge each other, and succeed in learning! I am so happy I will be starting this 7th grade journey with each of you.

Always remember

*You Belong.*
